APPLICATION OF THE TEXAS COMPANY
FOR APPROVAL OF A NON-STANDARD
GAS PRORATION UNIT

Jalmat (Gas Pool)
Lea County, New Mexico

See Dec 10, 1958
NSP-453
(waiting water)

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

The Texas Company hereby makes application for administrative approval of a 40-acre non-standard gas proration unit comprising the SW/4 of the NW/4 of Section 30, T-24-S, R-37-E, Lea County, New Mexico, to be assigned to its C. C. Fristoe "b" (NCT-3) Well No. 1, and in support thereof states the following:

1. The Texas Company is owner and operator of the C. C. Fristoe "b" (NCT-3) Well No. 1, located 660 feet from the West line and 1980 feet from the North line of Section 30, T-24-S, R-37-E, Lea County, New Mexico. The attached plat shows the subject 160-acre C. C. Fristoe "b" (NCT-3) Lease and all offset operators.
2. The C. C. Fristoe "b" (NCT-3) Well No. 1 was classified as a Jalmat (Oil) well with a one barrel per day allowable as a result of a gas-oil ratio of 123,500 cubic feet per barrel until September 1, 1958, at which time the oil allowable was cancelled due to excessive gas-oil ratio. The well produces from an open hole interval from 2828 feet to 3180 feet in the Yates formation which is within the vertical limits of the Jalmat Gas Pool.
3. There are presently four other wells producing on the subject lease, three in the Jalmat (Oil) Pool and one in the Langlie-Mattix Pool. Since the completion interval in the subject well includes the producing intervals of the three Jalmat (Oil) Pool wells, it is therefore proposed to assign the SW/4 of the NW/4 of Section 30, comprising 40 acres, to the C. C. Fristoe "b" (NCT-3) Well No. 1 for gas proration purposes.
4. The proposed non-standard gas proration unit meets with the requirements in Rule 5 (b) of Order No. R-520 in that:

55.32
25.00
80.32

- a. The non-standard gas proration unit consists of contiguous quarter-quarter sections and/or lots.
- b. The non-standard gas proration unit lies wholly within a single governmental section.
- c. The entire non-standard gas proration unit may reasonably be presumed to be productive of gas.
- d. The length or width of the non-standard gas proration unit does not exceed 5280 feet.
- e. All operators owning interests within 1500 feet of the proposed gas well and all offset operators to the lease have submitted letters of waiver, one copy each of which is attached.

Based on the facts recited above, The Texas Company respectfully requests that the New Mexico Oil Conservation Commission approve administratively the non-standard gas proration unit described above.

Yours very truly,

THE TEXAS COMPANY

Gentlemen:

This is to advise that Gulf Oil Corporation has been given due notice that you have made application for permission to establish a non-standard proration unit in the Jalmat Gas Pool. It is understood that this non-standard proration unit will be assigned to your C. C. Fristoe "b" (NCT-3) Well No. 1, which is located 660' FWL and 1,980' FNL of Section 30, T-24-S, R-37-E, Lea County, New Mexico.

We hereby waive any objection to the granting of permission to establish the non-standard gas unit encompassing the following acreage:

40 acres consisting of the SW/4 of the NW/4
of Section 30, T-24-S, R-37-E, Lea County,
New Mexico.

Executed this 29th day of September, 1958.

Yours very truly,

GULF OIL CORPORATION,

Attention: Mr. A. L. Porter, Jr., Secretary and Director
Gentlemen:

Continental Oil Company has been notified of The Texas Company's application for a 40-acre non-standard gas proration unit comprising the SW/4 of the NW/4 of Section 30, T-24-S, R-37-E, Lea County, New Mexico, to be assigned to its C. C. Fristoe "b" (NCT-3) No. 1.

You are respectfully advised that Continental Oil Company hereby waives notice and hearing on the application described above.

Yours very truly,

HLJ-SL
