Box 871  
Santa Fe, New Mexico

Attention: Mr. W. B. Macey

Gentlemen:

*NSP - 476  
(waiting period)  
Mar 18/59*

Under the provision of Rule 5 (b) of Order R-520, Oil Well Drilling Company respectfully requests administrative approval of a proposed non-standard proration unit for its Wood State "A" Well No. 2 located 1980 feet south of the north line and 1650 feet east of the west line of Section 16, T20S, R37E, Lea County, New Mexico in the Eumont gas pool.

The proposed unit consists of 40 acres comprised of the SE/4 of the NW/4 of Section 16, T20S, R37E.

The Wood State "A" Well No. 2 was completed as an oil well in the Monument Pool. However, the well is not producing at the present time due to water. We have therefore filed for approval Form C-102 for recompletion. All acreage included in the proposed unit falls within the limits of the Eumont Gas Pool and is reasonably presumed to be productive of gas from that Pool.

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5 (b) in all respects as follows:

1. Said unit consists of contiguous quarter-quarter sections.
2. Said unit lies wholly within a single governmental section.
3. The entire proposed unit may be reasonably presumed to be productive of gas.

February 12, 1959

4. The length or width of said unit does not exceed 5,280 feet.
5. Copies of this application have been furnished by certified mail to all offset operators, all operators within 1,500 feet of said well, and all operators in the section which is Federal land.

A plat is attached hereto showing to the best of our knowledge or belief the proposed unit, the location of the well and the offset ownership.

In view of the facts set out herein, it is respectfully requested that the Commission issue an order approving the non-standard gas proration unit for Oil Well Drilling Company's Wood State "A" Well No. 2 as described above.

Very truly yours,

OIL WELL DRILLING COMPANY

Gentlemen:

This is to advise that Gulf Oil Corporation has been given due notice that Oil Well Drilling Company has made application for permission to establish a non-standard gas proration unit in the Eumont Pool. It is understood that this non-standard gas proration unit will be assigned to Oil Well Drilling Company's Wood State "A" Well No. 2, which is located 1980 feet south of the north line and 1650 feet east of the west line in Section 16, Township 20 South, Range 37 East, Lea County, New Mexico.

We hereby waive any objection to the granting of permission to establish the non-standard gas proration unit encompassing the following acreage:

40 Acres consisting of the SE/4 of the NW/4 of Section 16, Township 20 South, Range 37 East, Lea County, New Mexico.

Executed this 18th day of February, 1959.

Very truly yours,

W. A. SHELLSHEAR

Eumont Gas Field  
Lea County, New Mexico

Oil Well Drilling Company  
614-617 Adolphus Tower  
Dallas, Texas

Gentlemen:

Please refer to your letter of February 12, 1959, in which you requested a waiver of objection to the formation of a 40-acre gas proration unit (SE/4 NW/4 of Section 16-20S-37E) to be dedicated to Wood-State A-2, Eumont Field.

We have executed the requested waiver (copy attached) but inasmuch as the dry-gas rights on our State "G" Lease (SW/4 SW/4 of Section 16-20S-37E) have been assigned to the El Paso Natural Gas Company, we so noted on the waiver. We suggest that if you have not already done so, that a similar waiver be requested from El Paso Natural Gas Company.

Very truly yours,

Gentlemen:

Re: Oil Well Drilling Company  
No. 2 Wood State "A" Well,  
Eumont Field, Lea County,  
New Mexico, Administrative  
Approval for Non-Standard  
Gas Proration Unit

Continental Oil Company has no objection to the formation of the subject non-standard gas proration unit provided that Oil Well Drilling Company is agreeable for Continental Oil Company to contribute their State C-16 Lease consisting of the SW/4 NW/4 Section 16, T-20S, R-37E, on some equitable basis to ultimately form an 80-acre non-standard proration unit. Continental Oil Company has been in contact with the Oil Well Drilling Company by telephone and they have tentatively agreed, upon the successful recompletion of their No. 2 Wood State "A" Well, to join with Continental in the formation of an 80-acre non-standard gas proration unit.

Yours very truly,

*R. L. Adams*
