Re: Non-Standard Gas Proration Unit, Jalmat Gas Pool, Lea County, New Mexico

Gentlemen:

Cities Service Oil Company respectfully requests that you approve this application for the designation and formation of a 308 acre non-standard gas proration unit consisting of the W 1/2 of Section 30, Township 22 South, Range 36 East, Lea County, New Mexico, and that it be assigned to the Closson "B" No. 10.

In support of this application we wish to state the following:

1. The Closson "B" No. 10, located 1980, FSL and 660' FWL, Section 30, T-22-S, R-36-E, has been completed as a gas well from within the vertical limits of the Jalmat Gas Pool.
2. This non-standard gas proration unit consists of contiguous quarter/quarter sections within a single governmental section and the entire unit may reasonably be presumed to be productive of gas.
3. All operators owning interests within 1500' of the Closson "B" No. 10 have been furnished copies of this application by registered mail.
4. A plat of the area indicating the proposed non-standard gas proration unit and offset ownership is attached.

An exception to Rule 5-A, Order R-520, permitting the assignment of a 308 acre non-standard gas proration unit to this well is requested.

Respectfully submitted,

CITIES SERVICE OIL COMPANY
E. H. Furrey, Jr.
E. H. Furrey, Jr.

Oliver
We won't issue NSP-546.
Use the number again.

Mr. Oliver Payne
Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Dear Ollie:

We are returning the application for NSP-546 since, according to our records, the same application was approved by this office under proposed NSP-544.

Perhaps the confusion resulted from our having forwarded an extra copy of this application, which Cities Service sent to us, on to you in order that you would have the necessary number of copies for normal distribution.

Yours very truly,

OIL CONSERVATION COMMISSION

Eric F. Engbrecht
Engineer, District 1
