WOLFSON OIL COMPANY

OIL PRODUCERS
1222 DAVIS BUILDING

DALLAS 2, TEXAS

NEP

August 22, 1961

New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Gentlemen,

Wolfson Oil Company respectfully applies for a non-standard gas proration unit for its E.E. Jacks B-26 No. 3 well located in Section 26, Township 24 South, Range 37 East, Lea County, New Mexico.

This well is located on a 120 acre lease and application has been submitted to dual the well in the Langlie-Mattix field in the Queen formation and the Jalmat field in the Yates formation. The Queen formation has been allocated the normal 40 acre unit. The Yates formation in the Jalmat field has 160 acres as the basic proration unit. The 120 acres that we assign our Jacks B-26 No. 3 is within the horizontal limits of the Jalmat field therefore can be reasonably assumed to be productive.

Your early consideration of our request will be appreciated.

Yours very truly,

H. G. Freedman
Production Engineer

Attention: Mr. H. G. Freedman, Production Engineer

Gentlemen:

The Commission has received your application, dated August 22, 1961, for a non-standard gas proration unit in the Jalmat Gas Pool in Section 26, Township 24 South, Range 37 East, Lea County, New Mexico.

Reference is made to the Commission's Order No. R-1670 which established 640 acres as the standard proration unit in the Jalmat Gas Pool. This order also established certain administrative procedures for obtaining authorization for non-standard units of lesser acreage. In order to obtain administrative approval for your request under this order, it will be necessary for you to either obtain the consent of all offsetting operators, or furnish proof of the fact that they were notified by registered mail of your application. If the latter course is chosen, the Commission will wait 30 days and, if no objection is received, will then approve your application.

I will hold your application in abeyance until you have furnished written consent from the offset operators or proof of the fact that they have been notified.

Very truly yours,

RICHARD S. MORRIS
Attorney

Attn: Mr. J.L. Kapteina

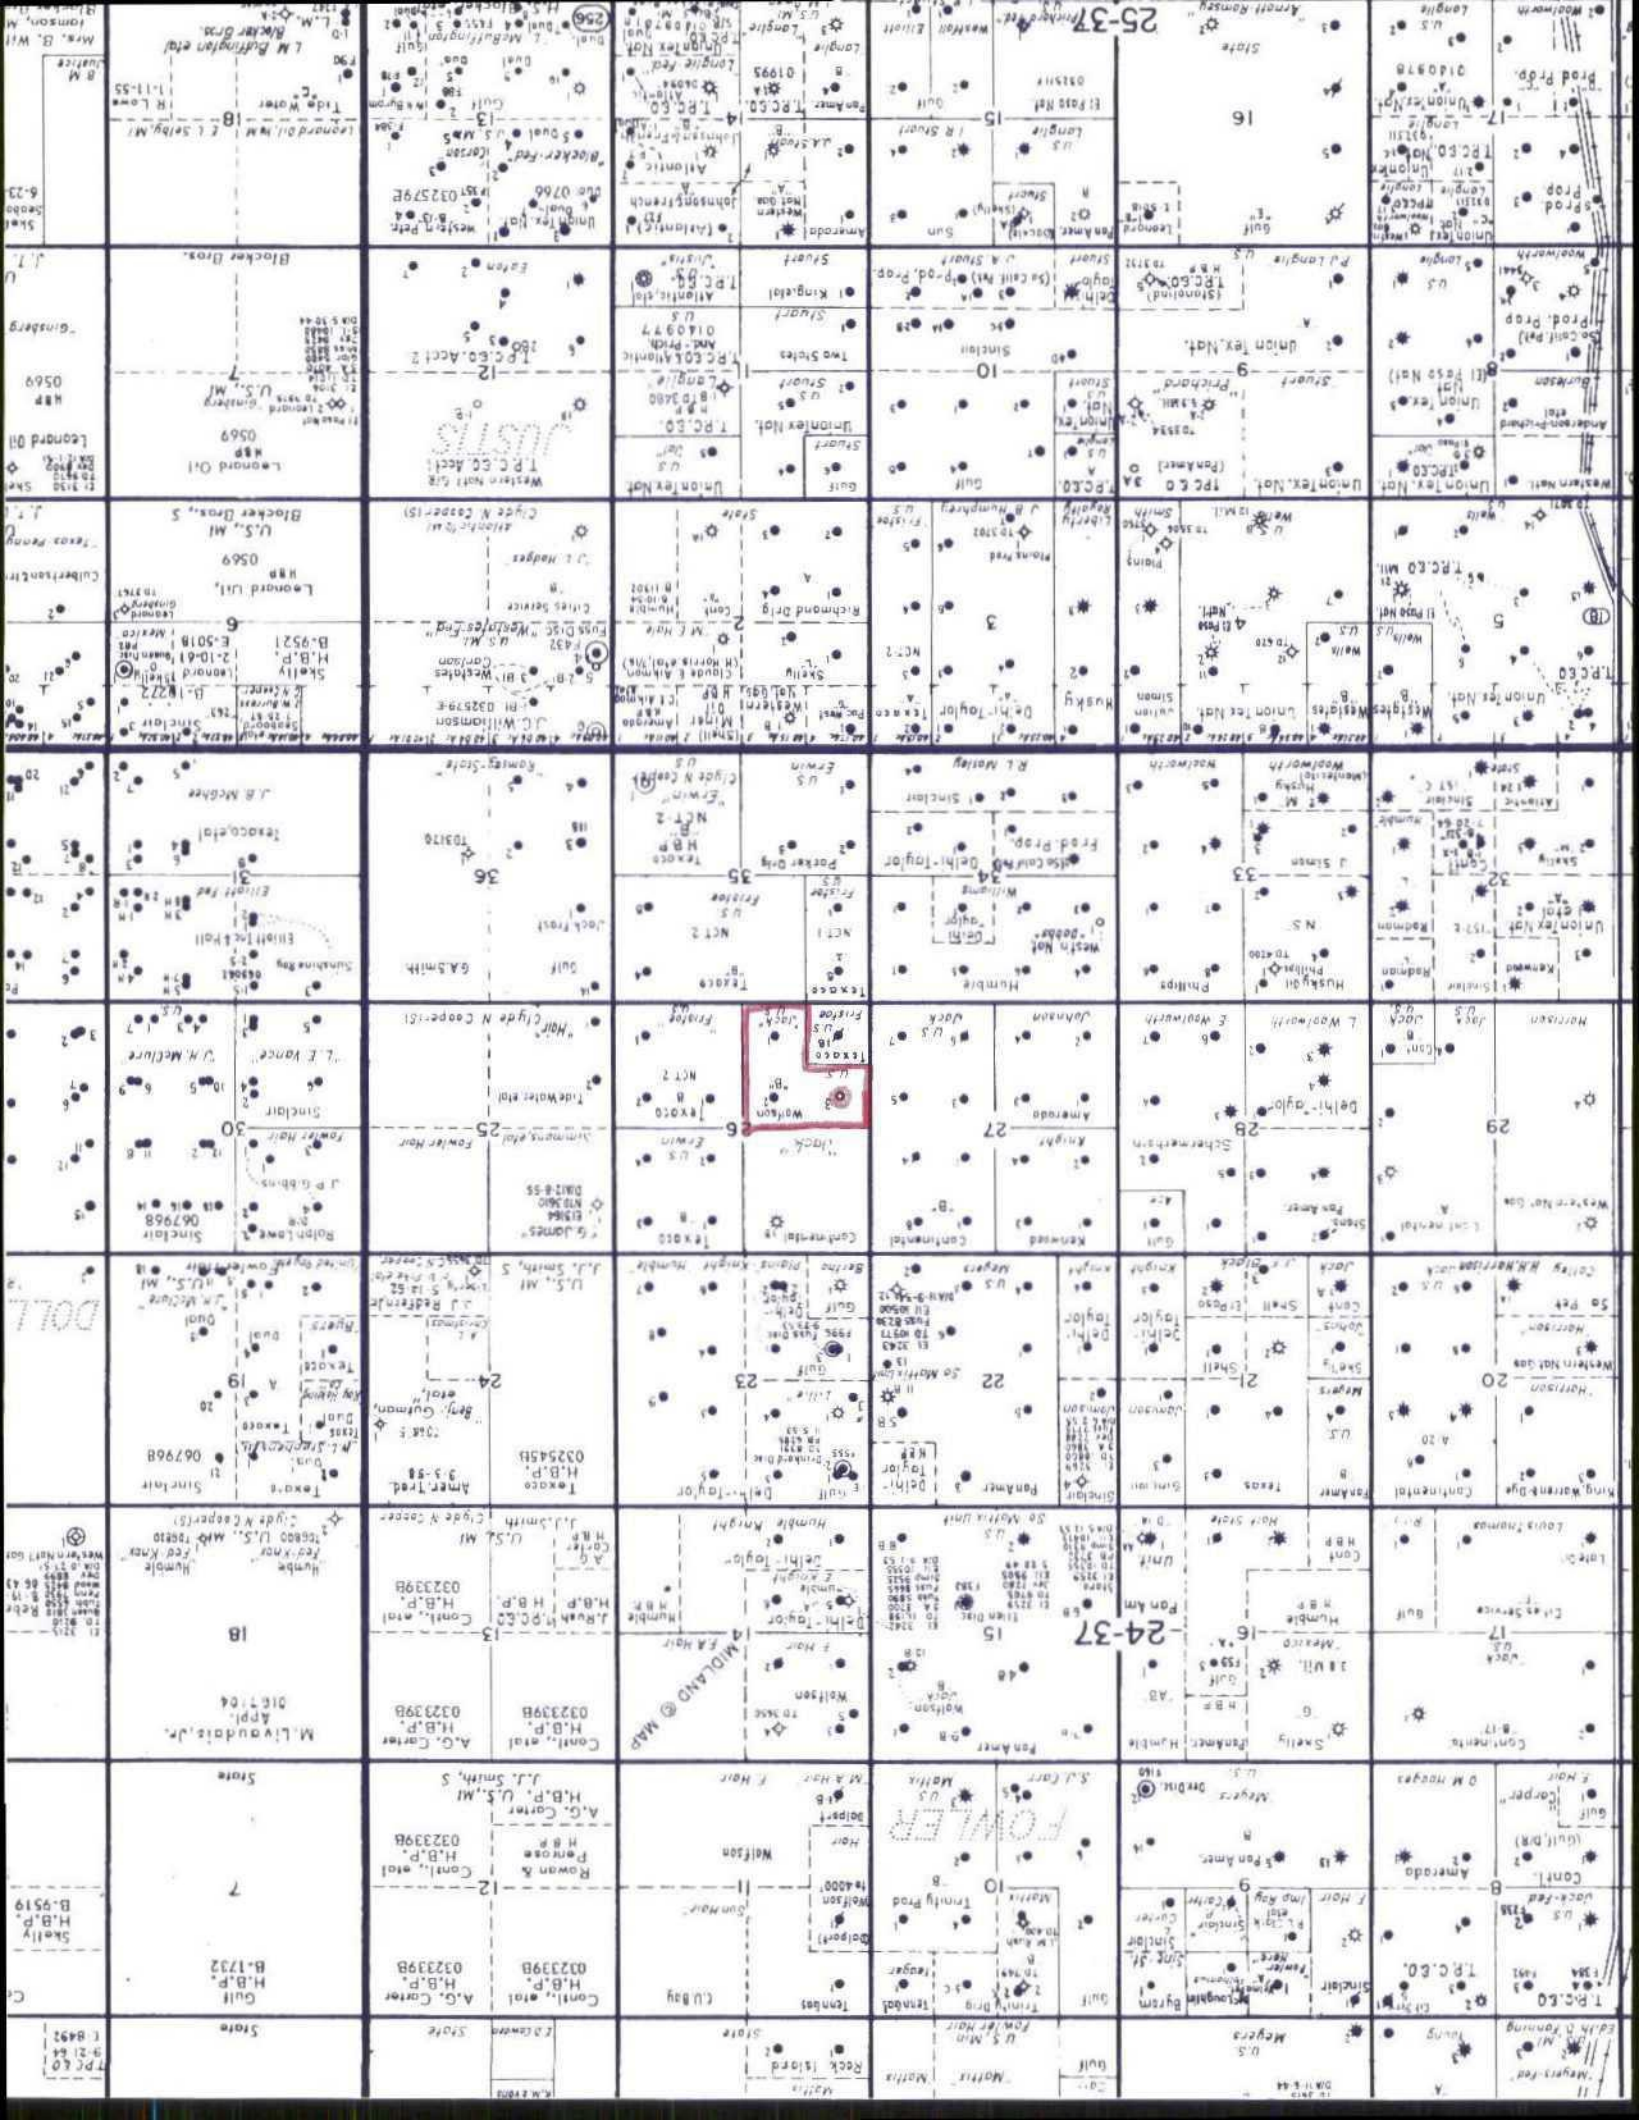

Dear Sir;

In compliance with your letter of August 31, 1961 we attach return receipts from Continental Oil Company and Texaco, Inc. indicating their reception of our application for dual completion and non-standard gas proration unit for our E.E. Jacks B-26 No. 3 well located in the Langlie-Mattix and Jalmat fields of Lea County, New Mexico.

Also attached find corrected schematic diagram showing that the cement was circulated on the 8 5/8 surface casing which was not reported originally.

Yours very truly,

H.G. Freedman
