Mr. Archie P. Farr
Petroleum Engineer
West States Oil Reports
P. O. Box 953
Midland, Texas

Re: Administrative Order NSP-593

Dear Mr. Farr:

Reference is made to your application on behalf of Ralph Lowe for approval of a 120-acre non-standard gas proration unit in the Jalmat Gas Pool consisting of the following acreage:

LEA COUNTY, NEW MEXICO
TOWNSHIP 25 SOUTH, RANGE 36 EAST, NMPM
Section 25: NW/4 SE/4 and S/2 SE/4

It is understood that this unit is to be dedicated to your Sholes "B" Well No. 2, located 660 feet from the South line and 660 feet from the East line of said Section 25.

By authority granted me under the provisions of the Special Rules and Regulations for the Jalmat Gas Pool, Ralph Lowe is hereby authorized to operate the above-described acreage as a non-standard gas proration unit, with allowable to be assigned thereto in accordance with the pool rules, based upon the unit size of 120 acres.

Very truly yours,

A. L. PORTER, Jr.,
Secretary-Director

Re: Application for Non-Standard
Gas Proration Unit in Jalmat
Pool, Lea County, New Mexico

Gentlemen:

Please consider this letter a formal application by Ralph Lowe for a 160-acre Non-Standard Gas Proration Unit for his Sholes "B" 2 well located in the Jalmat Pool, 660 feet from the South and East lines of Section 25, Township 25S, Range 36E, Lea County, New Mexico.

The Sholes "B" 2 was originally completed on August 25, 1947, as an oil well in the lower Yates dolomite. As the result of being flooded out by water due to natural causes, the well is no longer capable of producing oil. However, a sand section behind the casing, but still in the lower Yates formation, is capable of commercial dry gas production.

Since the sand section exists throughout the entire Sholes "B" Lease and is productive, it is requested that Sholes "B" 2 be assigned the 160 acres outlined in red on the attached plat for gas well proration purposes.

Yours truly,

Archie P. Farr
Petroleum Engineer
