Re: Amended Application for Non-  
Standard Gas Proration Unit  
in Jalmat Pool, Lea County,  
New Mexico

Gentlemen:

On March 22, 1962, an application was made by Ralph Lowe for a 160-acre Non-Standard Gas Proration Unit for his Shoales "B" 2 well located in the Jalmat Pool, 660 feet from the South and East lines of Section 25, Township 25S, Range 36E, Lea County, New Mexico.

Since the outlined acreage is divided by a section line, it is requested that the original application be amended to include only the 120 acres located in Section 25. The 40 acres outlined in Section 31 are not to be considered in this application.

Yours truly,

Archie P. Farr  
Petroleum Engineer
