Attention: Mr. Joe D. Ramey

Gentlemen:

We request your administrative approval to simultaneously dedicate our newly drilled Arnott-Ramsay (NCT-D) No. 15 and our existing Arnott-Ramsay (NCT-D) No. 3 to the same 320-acre nonstandard gas proration unit that was approved for Well No. 3 under Administrative Order NSP-607 on July 3, 1962. Well No. 15 is located 810'FNL & 1980'FEL of Section 33-T21S-R36E, Lea County, New Mexico. Well No. 3 is located 1980'FN&WL of the same section.

In support of the above, the following points should be noted:

- (1) This application is in the interest of conservation.
- (2) Well No. 15 is located within the same 320-acre proration unit as Arnott-Ramsay (NCT-D) No. 3, but well No. 3 is not capable of making top allowable production.
- (3) The completion of Well No. 15 represents reasonable development in the Eumont gas pool.
- (4) The attached plat shows the location of the two wells involved and the boundaries of the 320-acre nonstandard gas proration unit.
- (5) All offset operators are being notified of this request by copy of this letter.

If you have any question or comments concerning these matters, please contact this office. Your prompt consideration of this request will be greatly appreciated.

Yours very truly,

R. C. Anderson
