Gentlemen:

On September 10, 1962, this office received the above applica-
tion requesting administrative approval of a 40-acre non-standard

This application was placed in our suspense file pending the
30-day waiting period in which offset operators may file objections
to granting the application. As the 30-day waiting period expires
October 10, 1962, the file was activated in order to prepare the
order granting the application. However, we now note that you
apparently mailed your well file copy and the copies intended for
offset operators to this office along with your application and we
inadvertently placed the same in our file; therefore, offset opera-
tors have no notice of the application.

In order to minimize this oversight, we are today returning
your well file copy, forwarding the copies of your application to
offset operators, and by copy of this letter requesting that they
notify this office by return mail if they have no objection to

approval of the subject application. In view of the facts, we feel the offset operators will be willing to notify us immediately if they have no objection and approval can then be granted.

We apologize for our oversight and hope the above disposition of the matter will be satisfactory to you.
