Re: Waivers concerning Application for Non-Standard Proration Unit in the  
Blinbry Gas Pool of Tidewater's State "S" Lease, Units C and D, Section 15,  
Township 21S, Range 37E.

Attention: Mr. A. L. Porter

Dear Sir:

Attached are the waivers from the offset operators concerning Tidewater's  
Application for Non-Standard Proration Unit in the Blinbry Gas Pool of its  
State "S" Lease. This application was submitted to your office on September  
27, 1963.

We have submitted these waivers in an attempt to expedite approval of our  
application mentioned above. Thank you for your consideration.

Yours truly,

*C. L. Wade*

Gentlemen:

Re: APPLICATION OF TIDEWATER  
OIL COMPANY FOR A NON-  
STANDARD GAS PRORATION  
UNIT - BLINEBRY POOL

Continental Oil Company has received a copy of the application of Tidewater Oil Company for an 80-acre gas proration unit in the Blinebry gas pool. It is our understanding that the unit will consist of the N/2 of the NW/4, Section 15, T21S, R37E, and will be allocated to their State S Well No. 2, located in Unit C of the said Section 15. Continental Oil Company, although not an offset operator as defined in Order No. R-1670, hereby waives notice and hearing on the application described above.

Yours very truly,

VTL-pr

Re: Application for 80 acre non-standard proration unit in the Blinebry Gas Pool of Tidewater's State "S" Lease, Units C and D, Section 15, Township 21-S, Range 37-E.

Attention: Mr. A. L. Porter

Gentlemen:

Our State "S" Blinebry Gas Proration Unit currently consists of the 160 acres in units A, B, C, and D of Section 15, Township 21-S, Range 37-E. We recently requested administrative approval to dual our State "S" Well No. 3 (Unit B, Sec. 15, T-21-S, R-37-E) in the Blinebry and Drinkard oil zones. We now request that the 80 acres in Units A and B of Sec 15, T-21-S, R-37-E, be released from their commitments to the 160 acre State "S" Blinebry Gas Proration Unit so that the released acreage may be developed in the Blinebry Oil Zone.

The release of this acreage will leave only the 80 acres in Units C and D of Sec. 15, T-21-S, R-37E to be dedicated to the Blinebry Gas Proration Unit. We therefore request that the 80 acres in Units C and D of Sec. 15, T-21S, R-37E, be approved as a Non-standard Gas Proration Unit in the Blinebry Gas Pool

The proposed 80 acre unit will consist of contiguous acreage as shown on the attached plat. State "S" Well No. 2, which lies in Unit C, is the producing well of the proposed unit.

We assume that the 80 acres of the proposed unit will be considered productive by the Commission, since this same acreage was considered productive in the previous 160 acre gas unit.

All offset operators, all operators in Section 15, and all operators within 1500 feet of the proposed unit have been sent copies of this application. These operators are to send their waivers to us, and we will forward them to your office upon receipt.

In compliance with New Mexico Oil Conservation Commission Order R-1670, General Rule 5C, we respectfully request that our application for establishment of this Non-standard Gas Proration Unit be granted.

Yours truly,

*C. L. Wade*
