Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A. Inc. respectfully requests administrative approval for a reclassification of the Alice Paddock No. 2 from an oil well to a gas well, creation of a non-standard 80 acre gas proration unit, a standard gas well location, and simultaneous dedication with the Alice Paddock No. 1.

Well No. 2 needs to be reclassified as a gas well, per OCD guidelines, as the GOR is higher than 50,000 to 1. A non-standard 80 acre gas proration unit is proposed to be dedicated to wells No. 2 and 1. The location of the new proration unit is the W/2 SE/4, Section 1, T22S, R37E, making this well a standard well location.

A copy of this administrative application is being provided to our offset operators via Certified Mail. Attached is a commercial map and a Form C-102 plat illustrating the proration unit acreage and well location. Also included is a copy of the letter sent to our offset operators.

If you have any questions, or if you require further information, please contact Michelle LeVan at (915) 687-7307.

Sincerely,

A handwritten signature in cursive script, appearing to read "M. L. LeVan".
