Re: Application of July 22, 1966, for non-standard
proration unit - H. Leonard "B" Lease Well No.
2, Unit D of Section 32, Township 23 South, Range
37 East, NMPM, Lea County, New Mexico

Gentlemen:

Rule 5(C) 7 of the General Rules and Regulations - South-eastern New Mexico, promulgated by Order No. R-1670, provides that in lieu of waivers from offset operators, the applicant may furnish proof that the offset operators were notified by registered mail of the application. Please furnish the Commission a statement listing the offset operators notified by registered mail.

Your letter of application requests a non-standard proration unit of 160 acres while the plat shows 320 acres. Please make the needed correction.

The Form C-104 attached to your application is being forwarded to our Hobbs District Office for handling.

Very truly yours,

GEORGE M. HATCH
Attorney

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Great Western Drilling Company has re-completed the H. Leonard "B" Lease, Well No. 2 as per request on Form C-101, April 29, 1966. Enclosed please find three C-104 Forms and three plats of the area.

Great Western Drilling Company requests 160 acre spacing on Well No. 2 due to its location, 660' from the north and west line of Section 32, 23-S, 37-E.

This will be a small producer. On a six hour stabilized test, 18/64" choke, the well produced 1,153 MCF with 440 psi on the tubing. Shut in tubing pressure is 640 psi.

This well was drilled as a Queen sand producer in 1939. During the past ten years it has produced a small quantity of gas only. The re-completion of the above data is from 2992 - 3109 feet (Yates - 7 Rivers).

The requested spacing is the west half of the north half of Section 32. All offset operators are being sent a copy of this letter.

Yours very truly,

GREAT WESTERN DRILLING COMPANY
