Application for Administrative Approval Non-Standard Gas Unit, Blinebry Gas Pool

Gentlemen:

Application for Administrative Approval is being made by Sohio Petroleum Company for the establishment of a 40-acre non-standard gas proration unit for the Blinebry gas zone in its Percy Hardy No. 1 well, located in Unit Letter N, Section 17, T21S, R37E, Lea County, New Mexico.

This well currently is an approved dual Blinebry gas - Drinkard oil producer and the Blinebry gas completion is currently prorated on an approved 80-acre non-standard unit. It is our desire to have this proration unit changed from the present 80-acre unit to the requested 40-acre unit. The present unit is composed of the southeast quarter of the southwest quarter, and the southwest quarter of the southeast quarter of Section 17, T21S, R37E. The requested unit would be composed of only the southeast quarter of the southwest quarter of the same section. This proposed non-standard gas proration unit will meet the requirements of Order R-5500 as follows:

- a. The unit will be comprised of a quarter section.
- b. The unit lies wholly within a single governmental section.
- c. All acreage within the unit may reasonable be presumed productive of gas.
- d. The length or width of the unit does not exceed 5280'.
- e. By copy of this letter of application all operators owning interest in the section in which the proposed unit is located, and all operators within 1500' of the proposed unit well, are notified by registered mail of the intent of Sohio to create this non-standard spacing unit.

Respectfully submitted,

SOHIO PETROLEUM COMPANY
