Subject: Assign a Non-Standard  
Proration Unit to Our  
S.E. Cone No. 1 Unit "J"  
Sec. 26, T-21-S, R-37-E

Attn: Mr. Dan Nutter

Dear Sir:

This subject well is an old completion. It was reclassified as a gas well 2-1-65 by order of OCC. Although this well formerly produced as a gas well, a NSP number was never assigned. It is our request that an 80 acre non-standard proration unit be assigned this well; located 1980' from South Line and 1980' from East Line of Section 26. This 80 acres being the N $\frac{1}{2}$  of SE $\frac{1}{4}$  of Section 26, of Lea County.

The Blinebry Zone is in the Blinebry Gas Pool. El Paso Natural Gas Company has an operating meter run at this location. A satisfactory packer leakage test was taken on this well April 12, 1966. The distillate from this zone will be commingled on your Administrative Order No. MC-1531.

Please find enclosed plat of off-set operators.

Sincerely,

TEXAS PACIFIC OIL COMPANY

Hobbs, New Mexico

O  
Attention: Mr. Sheldon Ward, Area Superintendent

Gentlemen:

P  
Reference is made to your request dated September 15, 1966, for an 80-acre non-standard gas proration unit in the Blinebry Gas Pool consisting of the N/2 SE/4 of Section 26, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico, to be dedicated to your S. E. Cone Well No. 1 located 1980 feet from the South and East lines of said Section 26, and the plat of offset operators.

Y  
In order to obtain administrative approval for your request, it will be necessary for you to either present written consent in the form of waivers from all offset operators, or furnish proof of the fact that they were notified by registered mail of your application. If the latter course is chosen, the Commission will wait 30 days and, if no objection is received, will then approve your application.

We will hold your application in abeyance until you have furnished written consent from offset operators or proof of the fact that they have been notified.

Very truly yours,

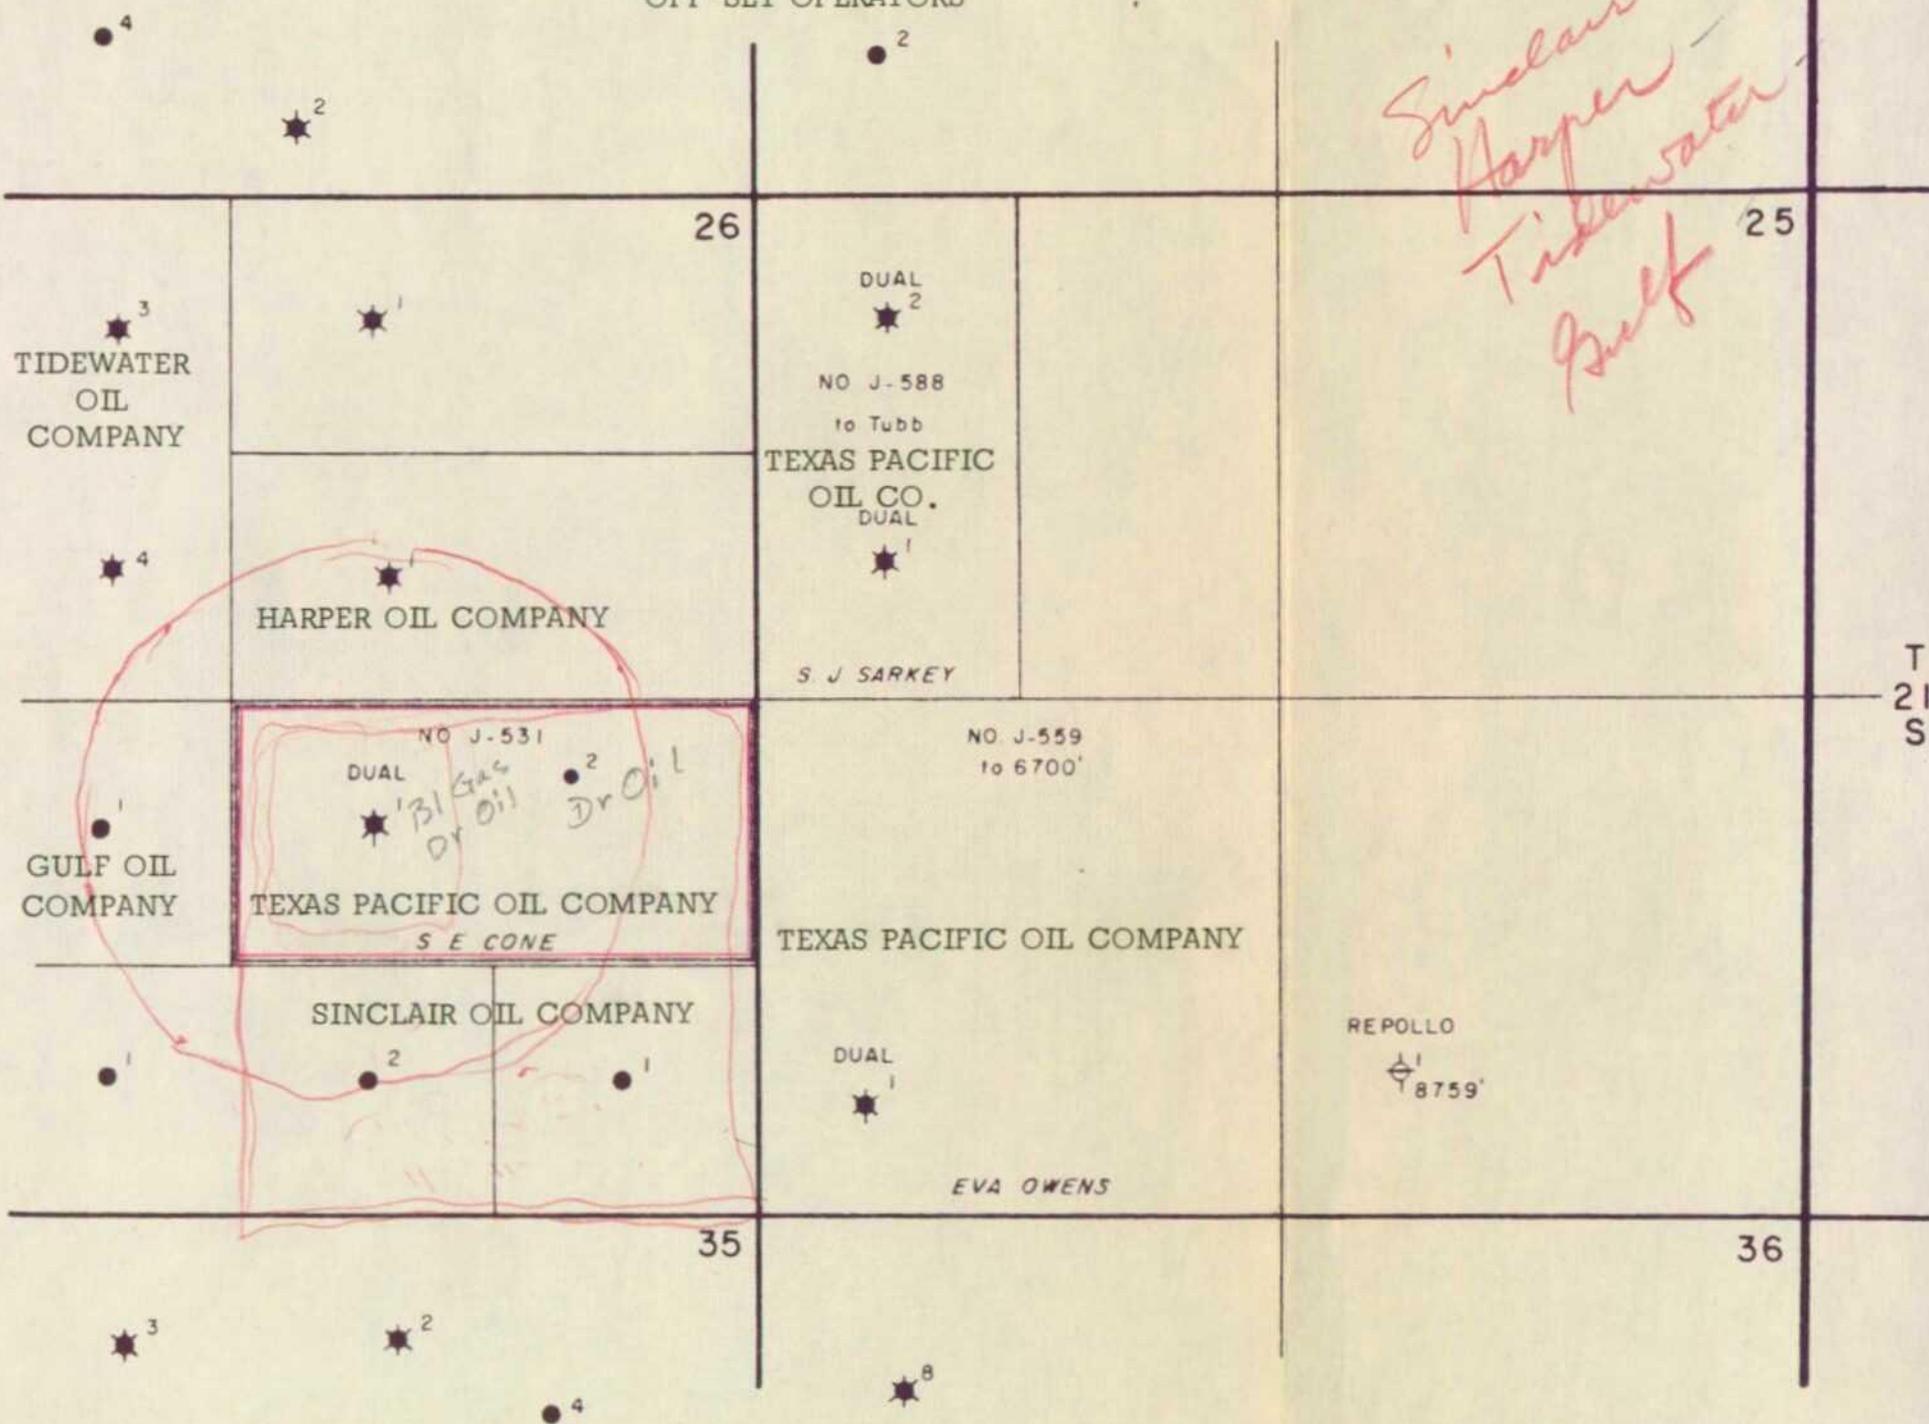

GEORGE M. HATCH  
Attorney
