Subject: Poker Lake Unit, Federal No.
36, (Wildcat) Eddy County,
New Mexico

Mr. A. L. Porter, Jr.
Secretary-Director
New Mexico Oil Conservation Commission
Post Office Box 2088
Santa Fe, New Mexico

Dear Sir:

Pan American Petroleum Corporation respectfully requests approval of a temporary 160-acre non-standard unit for its Poker Lake Unit, Federal Well No. 36, a wildcat Devonian gas well that is located 660 feet from the South line and 660 feet from the East line of Section 28, Township 24 South, Range 31 East, Eddy County, New Mexico.

Federal Well No. 36 was a projected 16,200 Mississippian wildcat oil well. However, due to favorable structural features encountered during drilling, a decision was made to drill to 16,700 feet to test the Devonian. The subject well is located on a 160-acre Federal lease being the SE/4 of Section 28. This well tested gas and was completed in the Devonian. While testing for clean-up purposes into the sales line, the producing characteristics changed radically such that we do not know at this time whether or not the well will be a commercial producer.

Therefore, in order to eliminate what may be the needless pooling of a 320-acre standard unit and an unnecessary hearing for approval of an unorthodox well location, we are asking approval of a temporary non-standard unit so that the well may be produced a sufficient length of time to determine whether or not it is commercial. All production will be into a sales line.

-2-

Mr. A. L. Porter, Jr.
Oil Conservation Commission
Santa Fe, New Mexico
April 5, 1967

The only operator, other than Pan American, owning an interest in the S/2 or E/2 of Section 28, and the only offset operator to the 160-acre non-standard proration unit is Perry R. Bass and Richardson Oils, Inc. This operator is sending a wire to the Commission today waiving objection to the approval of this temporary 160-acre non-standard unit.

Yours very truly,

DON L. RAY
Division Engineer
