Re: Application of Getty Oil Company for
approval of a 150 acre non-standard
gas proration unit, West Ranger Lake
Devonian Gas Pool, Lea County, New Mexico

Gentlemen:

Along with our application and plat concerning the subject non-standard gas proration unit, we are attaching waivers from the offset operators.

Our records indicated that the Cabot Corporation was the operator of the SE 1/4 of Section 22, T12S, R34E. However, when contacted, they stated Cabot was in partnership with American Trading and Production Corporation, who was the operator. A waiver was thereby requested from American Trading, who replied they no longer have lease interests in the area. We are attaching the reply received from American Trading.

Your consideration of our application will be greatly appreciated.

Very truly yours,

GETTY OIL COMPANY

Re: Application of Getty Oil Company for approval of a 150 acre non-standard gas proration unit, West Ranger Lake Devonian Gas Pool, Lea County, New Mexico.

Gentlemen:

Getty Oil Company respectfully requests an exception to Rule 5-A of Order No. R-1670, for an approval of a 150 acre non-standard gas proration unit covering the E/2 of the NE/4, SW/4 of the NE/4, S/2 of the NW/4 of the NE/4, and NE/4 of the NW/4 of the NE/4 of Section 27, Township 12 South, Range 34 East, West Ranger Lake Devonian Gas Pool, Lea County, New Mexico. This non-standard unit will be attributed to Getty's State "BF" Lease, Well No. 3 located 1980' FNL and 990' FEL in Unit H of Section 27, T-12-S, R-34-E.

The following facts are submitted for your consideration:

1. The proposed non-standard proration unit consists of less acreage than a standard proration unit.
2. The non-standard gas proration unit consists of contiguous quarter-quarter sections.
3. The non-standard gas proration unit lies wholly within a single governmental section.
4. The entire non-standard gas proration unit may reasonably be presumed to be productive of gas from the West Ranger Lake Devonian Gas Pool as so stated in N.M.O.C.C. Order No. R-3480.
5. The length or width of the non-standard gas proration unit does not exceed 2640 feet.
6. All operators owning interests outside the non-standard gas proration unit but in the same section in which any part of the non-standard gas proration unit is situated, and all operators owning interests in acreage offsetting the non-standard gas proration unit have been furnished a copy of this application.

Respectfully submitted,

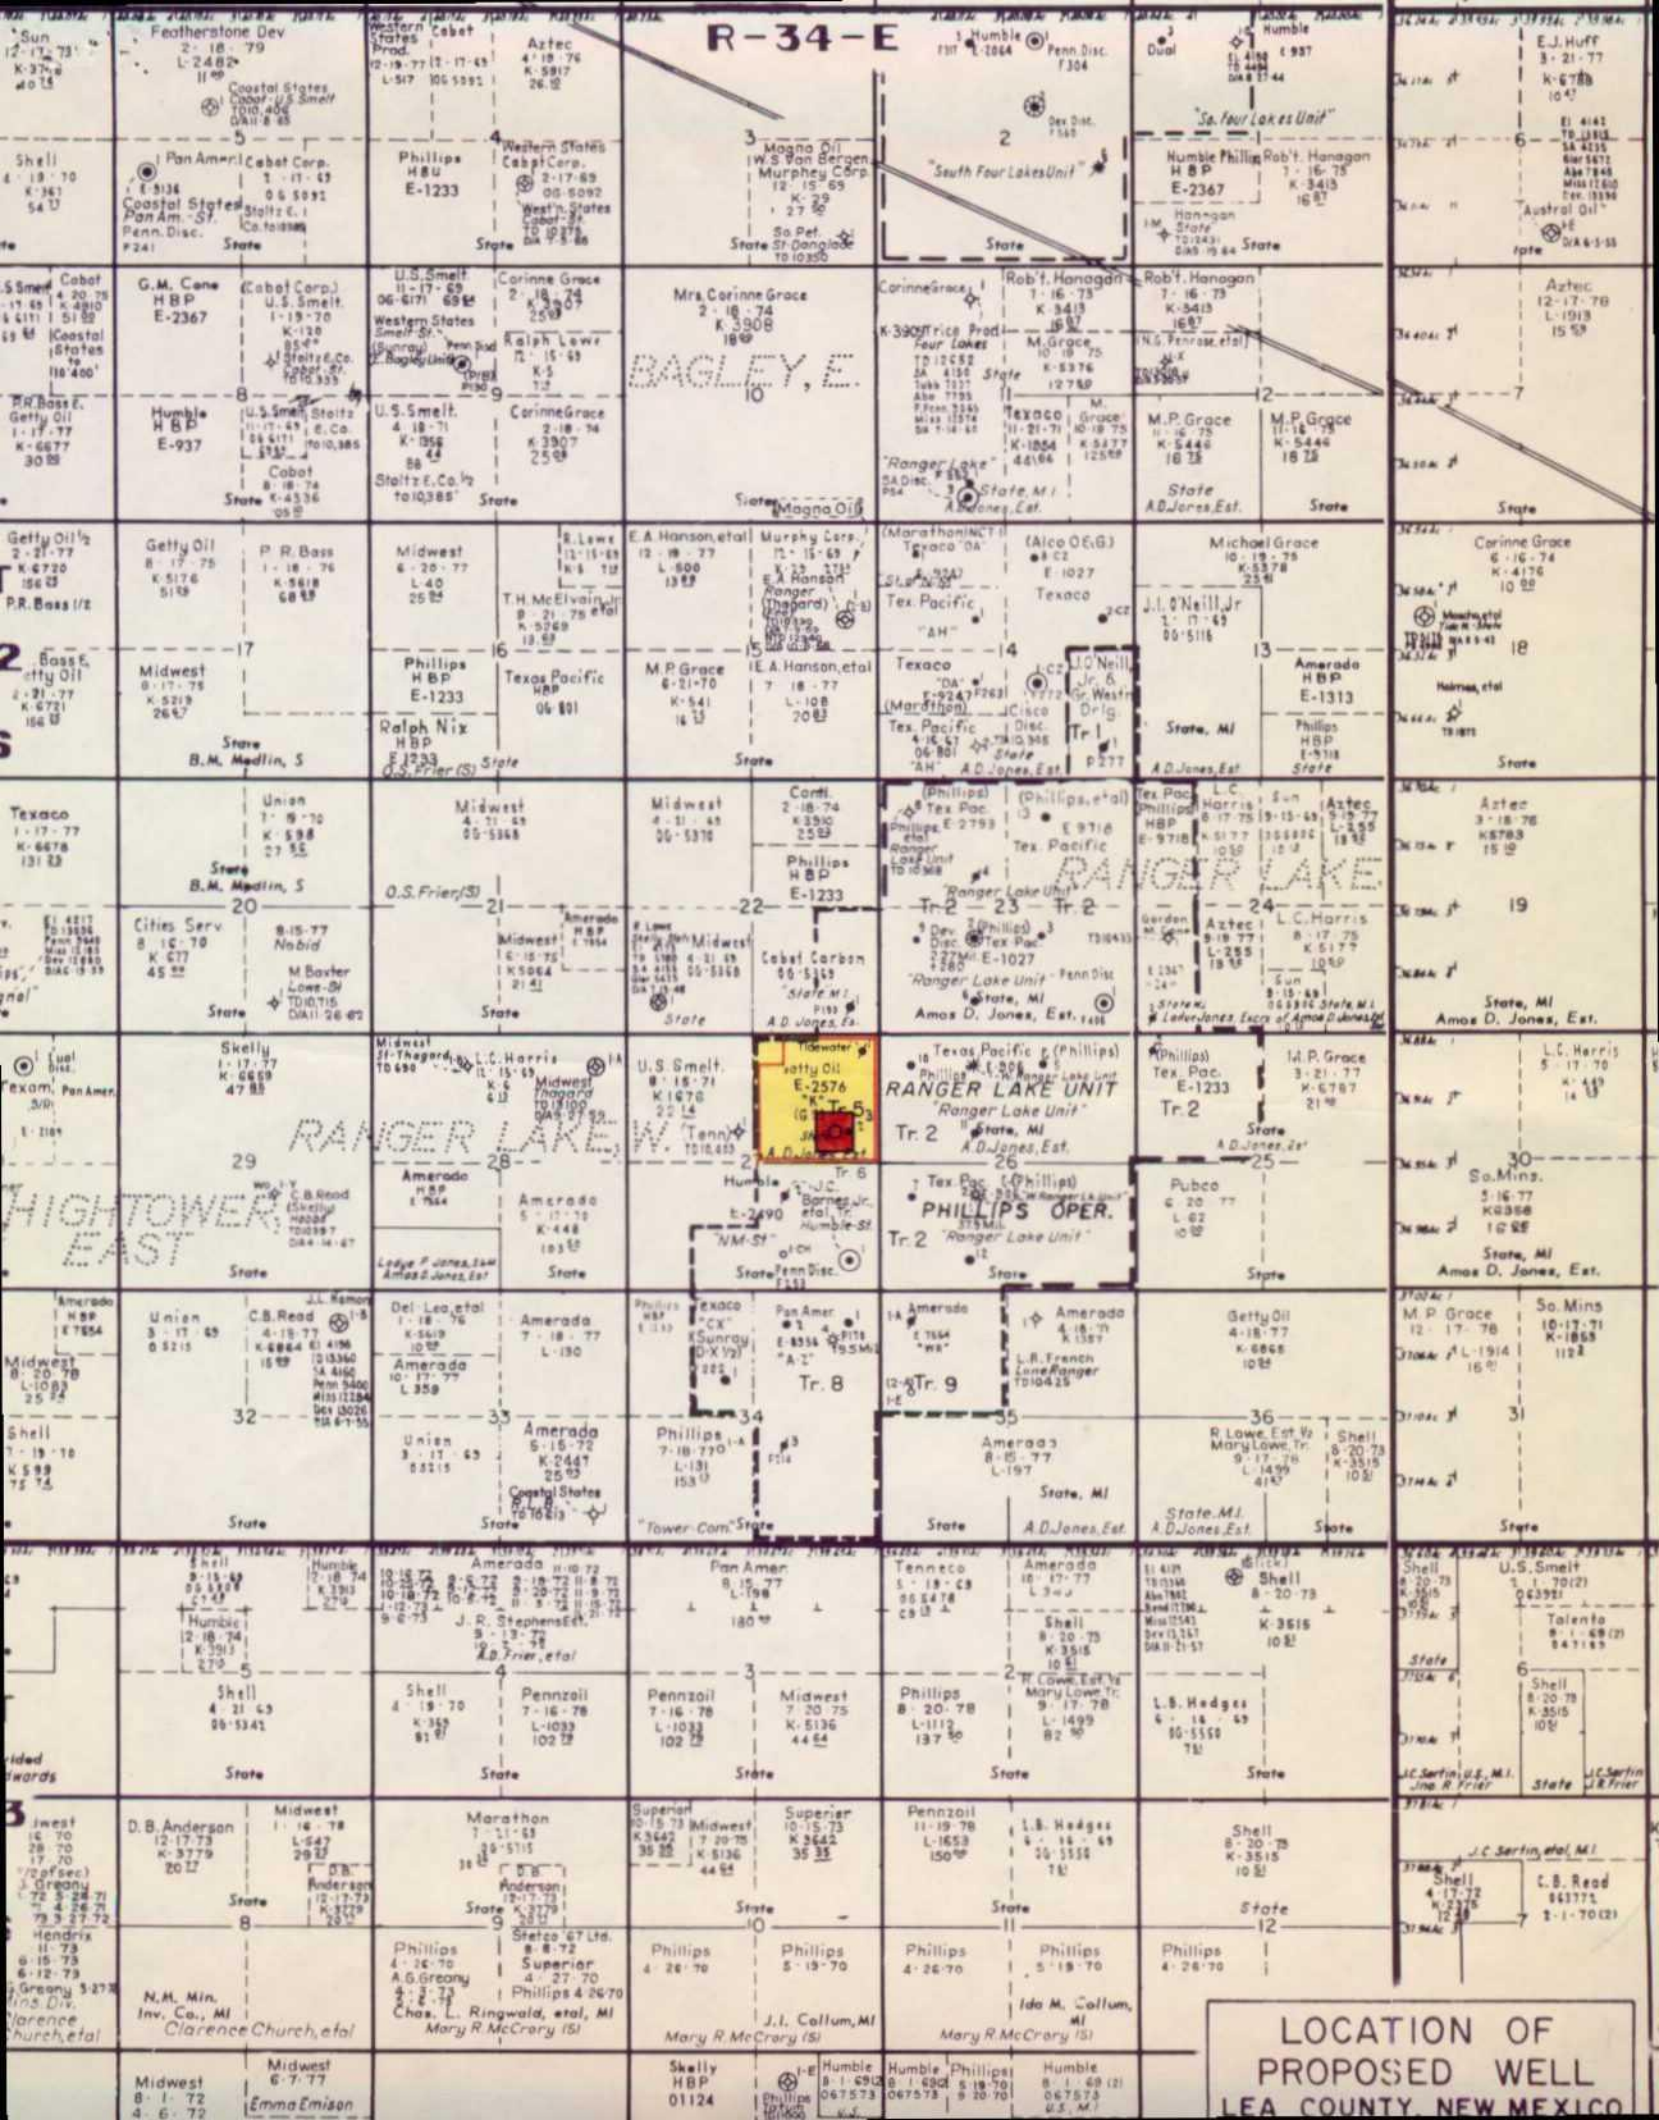

GETTY OIL COMPANY

Gentlemen:

Getty Oil Company has applied for approval of a 150 acre non-standard gas proration unit in the West Ranger Lake Devonian Gas Pool, Lea County, New Mexico. On March 13, 1969, a copy of the application was mailed to your office for your approval. Since we have not as yet received your waiver in regard to this matter, we respectfully request your prompt consideration of our application.

Very truly yours,

Gentlemen:

Attached is the waiver from the Cabot Corporation which we requested be
attached to and made a part of the subject application submitted April 2,
1969. Now all offset operators have signed waivers to our application.

Your consideration of our application will be greatly appreciated.
