Re: Request for Non-standard
Proration Unit

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Mr. Joe D. Ramey
Energy and Minerals Department
Oil Conservation Division
P. O. Box 2088
Santa Fe, NM 87501

*NSP-1164
I am on the
(Rule 104 D II)*

Dear Sir:

Gulf Oil Corporation requests administrative approval for a 273.26 acre nonstandard proration unit in the Undesignated Diamond Mound Atoka Gas Pool, consisting of Lots 3, 4, 5, 6, 11, 12, 13 and 14 of Section 6-T16S-R28E, Eddy County, New Mexico, to be dedicated to our Callaway Federal No. 1, located 2212'FNL and 660'FWL of Section 6-T16S-R28E.

In support of this application, the following facts are submitted:

- (1) The primary reason for the proration unit being a nonstandard size is that the survey resulted in the quarter-quarter sections along the north boundary of Section 6-16S-28E, being less than the standard 40-acre sized quarter-quarter sections.
- (2) Mesa Petroleum Company received administrative approval (Order NSP 1160 of 10-30-79) for a 271 acre nonstandard proration unit in the Undesignated Diamond Mound Atoka Gas Pool, consisting of Lots 3, 4, 5, 6, 11, 12, 13 and 14 of Section 5-T16S-R28E, Eddy County, New Mexico, for their Derrick Federal Com No. 1 well, located 2160'FNL and 1980'FWL Section 5-16S-28E.
- (3) Mesa Petroleum Company received administrative approval (Order NSP 1086 of 2-1-78) for a 240 acre nonstandard proration unit in the Undesignated Diamond Mound Atoka Gas Pool, consisting of Lots 13 and 14 and the SW/4 of Section 1-T16S-R27E, Eddy County, New Mexico, for their Diamond Mound Federal No. 1 well, located 1980'FSL and 660'FWL Section 1-16S-27E.
- (4) Mesa Petroleum Company received administrative approval (Order NSP 1090 of 3-21-78) for a 240 acre nonstandard proration unit in the Undesignated Diamond Mound Atoka Gas Pool, consisting of Lots 15 and 16, and SE/4 Section 1-T16S-R27E, Eddy County, New Mexico for their Diamond Mound Federal No. 2 well, located 1980'FS and EL Section 1-16S-27E.
- (5) There are no other wells producing from the Atoka formation in this 273.26 acre nonstandard proration unit.

A DIVISION OF GULF OIL CORPORATION

- (6) The attached plat shows the proposed 273.26 acre unit outlined in red.
- (7) All offset operators have been furnished a copy of this application by certified mail.

Your early consideration in this matter will be appreciated.

Yours very truly,

R. C. ANDERSON
