Re: Non-Standard Location, Sec 29, T20S, R36E

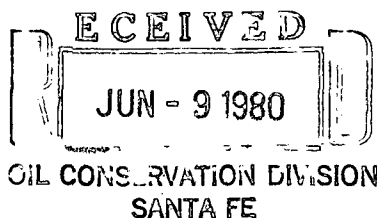

To Whom It May Concern:

The above mentioned location is under consideration for reentry of an abandoned well by Wilson Oil Company. Western Oil Producers, Inc. owns acreage to the south of this tract and has no objections to the non-standard proration unit under case #6914 to be heard June 4, 1980.

Due 6-16  
Rule 3 of Order  
No. R-3305

Dear Mr. Ramey:

Wilson Oil Company, by its undersigned attorneys, hereby applies for administrative approval of a non-standard unit and an unorthodox gas well location to permit Wilson, or someone on its behalf, to reenter the Wilson Oil Company State "JD" No. 1 Well located 1,650 feet from the South line and 1,980 feet from the West line of Section 29, Township 20 South, Range 36 East, N.M.P.M., Lea County, New Mexico, and attempt a gas completion in the Morrow formation, and to dedicate the S/2 of said Section 29 as the proration unit for the well. A plat showing ownership of all leases offsetting the non-standard unit is hereto attached.

The State "JD" No. 1 Well is located within one mile of the outer boundaries of both the North Osudo-Morrow Gas Pool and the Osudo-Morrow Gas Pool, but the State "JD" No. 1 Well is located closer to the North Osudo-Morrow Gas Pool. The North Osudo-Morrow Gas Pool Special Pool Rules providing, among other things, for 640-acre spacing units, were adopted in Case No. 3642, Order No. R-3305 by the Oil Conservation Commission.

Pursuant to Rule 3 of Order No. R-3305, Wilson certifies that the following facts exist:

- a) The non-standard unit consists of quarter-quarter sections or lots that are contiguous by a common bordering side.
- b) The non-standard unit lies wholly within a governmental section and contains less acreage than a standard unit.
- c) Wilson is this day furnishing all offset operators and all operators owning interests in Section 29 with copies of this application for administrative approval.

Mr. Joe D. Ramey, Director

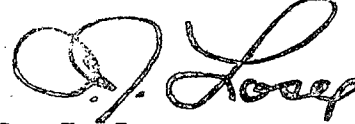

13 May 1980

The State "JD" No. 1 Well was previously drilled to 12,626 feet at an orthodox location under the North Osudo-Morrow Gas Pool Special Rules. Pursuant to Rule 104-F, applicant requests administrative approval for its said unorthodox location and certifies that copies of this application have been sent certified mail on this date to all operators of proration or spacing units offsetting the unit for which the unorthodox location is sought.

Respectfully submitted,

LOSEE, CARSON & DICKERSON, P.A.

Re: Application of Wilson Oil Company for  
Administrative Approval of Non-Standard  
Unit and Unorthodox Gas Well Location

Dear Mr. Ramey:

On May 13, 1980, on behalf of Wilson Oil Company, we submitted the subject application to permit Wilson Oil Company, or someone on its behalf, to re-enter the Wilson Oil Company State "JD" No. 1 Well located in Section 29, Township 20 South, Range 36 East, N.M.P.M., Lea County, New Mexico.

We now enclose consents of Texas Oil & Gas Corp., Western Oil Producers, Inc., Atlantic Richfield Company and Southland Royalty Company, formerly Aztec Oil & Gas Company. We understand that your Mr. Dan Nutter has received telegraphic consent by Mr. Jake L. Hamon which, when taken with the enclosed, constitutes the consent of all off-set operators.

Inasmuch as the lease will expire June 16, 1980, we will appreciate your early consideration to our request for administrative approval.

Very truly yours,

LOSEE, CARSON & DICKERSON, P.A.
