

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Attention: Mr. Joe D. Ramey

Gentlemen:

This is to advise that the undersigned has been given due notice that Exxon Corporation has made application for an unorthodox location for Ryan Federal Com. #1 in the Pennsylvanian Zones.

We hereby waive any objection to the granting of this application for the above well which will be located:

Ryan Federal Com. #1 located 1,175' FWL and 1,980' FNL of Section 30,
T16S, R29E, Eddy County, New Mexico

Executed this 3rd day of February 1981

Company Cal-Mon Oil Company

By 
Robert L. Monaghan, President

EXXON COMPANY, U.S.A.

POST OFFICE BOX 1600 • MIDLAND, TEXAS 79702

Request for Approval of an
Unorthodox Location for
Ryan Federal Com. #1
Wildcat
Eddy County, New Mexico

PRODUCTION DEPARTMENT
MIDCONTINENT DIVISION

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Attention: Mr. Joe Ramey

Gentlemen:

Attached is Form 9-331C, Application for Permit to Drill, Deepen or Plug Back, and Form C-102, Well Location and Acreage Dedication Plat for Ryan Federal Com. #1, a wildcat located 1,980' FNL and 1,175' FWL of Section 30, T16S, R29E, Eddy County, New Mexico.

*NSP - 1238
Rule 104 D-II
Wildcat Proratio Unit
Pool
3-6-81*

N/2

Statewide Rule 104 BI(a) requires that a gas well be located not closer than 660' to the nearest side boundary nor closer than 1,980' to the nearest end boundary of the dedicated tract nor closer than 330' to any quarter-quarter section or subdivision inner boundary.

The well is a standard location for the west half of the section, a permit to drill has been issued and operations for drilling have begun. It was not possible to locate the well so that it would be a standard location for either the north half or the west half of the section due to variation in the legal subdivision of the U. S. Public Land Surveys. The west half of the section contains only 262.4 acres and the north half contains only 291.2 acres.

An agreement has now been reached so that the north half of the section may be communitized. Please grant approval for an unorthodox location with the unit being the north half of the section instead of the west half. The well is located 1,175' from the end boundary instead of 1,980'.

The offset operators are being notified by certified mail of the application to complete this well as an unorthodox location. If you as an offset operator have no objection to this application, you are requested to execute the attached waiver and forward a copy to the New Mexico Oil Conservation Commission, P. O. Box 2088, Santa Fe, New Mexico 87501, and return one copy to this office.

The offset operators to this location are:

Cal-Mon, P. O. Box 2066, Midland, TX 79702 Attn: Mr. Robert L. Monaghan
Mrs. Pauline Trigg, c/o John Trigg, P. O. Box 520, Roswell, NM 88201

By letter dated January 13, 1981, Mr. Joe Ramey granted approval for a 262.4-acre non-standard proration unit consisting of the W/2 of Section 30, T16S, R29E, NM P.M. As the proration unit will now be the north half of the section, please grant administrative approval without notice and hearing for a non-standard

*Superseded
