Attention: Mr. Joe D. Ramey

Gentlemen:

Request for Non-Standard Proration Unit - Meyer B-4 No. 14, Unit Letter G,
5,940' FSL and 1980' FEL of Section 4, T 21-S, R36-E, Lea County, New Mexico

Conoco Inc. respectfully requests administrative approval of a 160 acre
non-standard proration unit for its Meyer B-4 No. 14 well. The well
previously was given a 360 acre non-standard unit by Commission Order
R-5055, however, well number 14 is not able to efficiently drain all
existing reserves and can not produce the maximum allowable. Well number
15 will, by way of a recompletion to the Eumont Queen Gas Pool, make up
the production that number 14 can not provide.

The proposed unit will conform to regulatory requirements in the following
ways:

- (1) The unit will consist of contiguous quarter - quarter sections (and/or
lots).
- (2) The unit lies wholly within a single governmental section.
- (3) The entire proposed unit may be reasonably presumed to be productive of
gas.
- (4) The length of the unit does not exceed 5,780 feet.
- (5) Copies of this application have been furnished by certified mail to
all offset operators and all operators within the Section.

Yours very truly,

David L. Wacker
