Attention: Mr. Joe D. Ramey

RE: Non-Standard Proration Unit Drinkard Well No. 1 Section 25, T-22-S, R-37-E Lea County, New Mexico

Gentlemen:

Sun Texas Company requests administrative approval for an 80 acre non-standard proration unit consisting of the N/2 of the NW/4 of Section 25, T-22-S, R-37-E, Lea County, New Mexico to be dedicated to the Drinkard Well No. 1, a currently producing marginal Blinebry Gas Well.

This unit will replace the present non-standard 160 acre proration unit approved by Order No. R-505.

This change is necessitated by the recent recompletion of the Drinkard No. 2 in the Blinebry formation. On March 3, 1980 the OCD approved the simultaneous dedication of Drinkard Wells No. 1 and 2 to the present 160 gas proration unit. But, the Drinkard No. 2 (due to a GOR less than 50,000:1) will be assigned to the Blinebry-Oil Pool, necessitating a separate 40 acre proration unit for the Drinkard No. $\overline{2}$.

Energy and Minerals Department Oil Conservation Division March 10, 1981 Page Two

Approval of this request will protect correlative rights, promote conservation, and encourage the efficient recovery of gas reserves.

Very truly yours,

SUN TEXAS COMPANY

M. L. Schroeder

Attention: Mr. A. Russ Hensley

Gentlemen:

You are hereby authorized to simultaneously dedicate an existing 160-acre proration unit, previously approved by Order No. R-505, and comprising the NW/4 SW/4, SW/4 NW/4, N/2 NW/4 of Section 25, Township 22 South, Range 37 East, NMPM, to your Drinkard Well No. 1 located in Unit C and your Drinkard Well No. 2 located in Unit E of said Section 25, both in Lea County, New Mexico.

Further, you are hereby permitted to produce the allowable from any of the wells on the proration unit in any proportion.

incerely

JOE D. RAMEY.
