Re: Request for Non-Standard
Proration Unit and
Non-Standard Location
Munn-Harrison Lease
E/2 NE/4 Section 7
T-25-S, R-37-E
Lea County, New Mexico

Gentlemen:

I am presently in the process of filing a C-101 and C-102 with the New Mexico Oil Conservation Division district office in Hobbs for permission to drill a Jalmat (Gas) well at a non-standard location consisting of 510 FNL and 990 FEL, Section 7, T-25-S, R-37-E. The subject well will be drilled on an un-dedicated 80-acre non-standard Jalmat (Yates) proration unit comprised of the E/2 NE/4 of Section 7, T-25-S, R-37-E, Lea County, New Mexico. Since the subject well is located at a non-standard location on an 80-acre non-standard proration unit, I hereby file for administrative approval to drill the subject well at a non-standard location consisting of 510 FNL and 990 FEL Section 7, T-25-S, R-37-E and for administrative approval to dedicate it to an 80-acre non-standard Jalmat (Yates) proration unit comprised of the E/2 NE/4 of Section 7, T-25-S, R-37-E, Lea County, New Mexico.

The non-standard location is necessary because of the topography and the equipment located on this lease. There is a drainage gully running north and south approximately 600 feet from the east edge of the lease. A pipeline runs southwest-northeast and passes through a point 660 FNL and 660 FEL. There is also a tank battery, powerlines, flowlines, and a Langlie-Mattix well in this area.

Three copies of a plat showing the location of the proposed well are enclosed.

Copies of this plat and application have also been sent by certified mail to all offsetting parties owning Jalmat dry gas rights. The following is a list of the offset Jalmat dry gas rights owners:

Mr. R. L. Stamets

- Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation _____

If answer is "no" list the owners and tract descriptions which have actually been consolidated (Use reverse side of this form if necessary) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.

We would be very appreciative if you would indicate your approval of our request for non-standard proration unit and non-standard location to be dedicated to the above captioned well by signing one copy of this request and returning it in the enclosed stamped, self-addressed envelope.

We have a rig available which we would like to use in the drilling of this well, so your prompt attention in this matter would be very much appreciated.

Very truly yours,

DOYLE HARTMAN
