Re: Request for Non-Standard
Location and Simultaneous
Dedication on a Non-Standard
Proration Unit
Munn-Harrison "B" Lease
E/2 NW/4 Section 7
T-25-S, R-37-E
Lea County, New Mexico

Gentlemen:

In the near future, we plan to file a C-101 and C-102 with the New Mexico Oil Conservation Division's office in Hobbs for permission to drill a 3200 foot infill Jalmat (Gas) well at a non-standard location of 660 FNL and 2256 FWL, Section 7, T-25-S, R-37-E, Lea County, New Mexico. The proposed new well (Munn-Harrison "B" No. 1) will be simultaneously dedicated to a newly formed 80-acre proration unit consisting of the E/2 NW/4 Section 7. The new proration unit will be comprised of the existing 40-acre proration unit for the Judy No. 2 Jalmat (Gas) well which consists of the SE/4 NW/4 Section 7 and the presently undedicated 40-acre Jalmat (Gas) tract consisting of the NE/4 NW/4 Section 7. I hereby file for administrative approval to drill the subject well at a non-standard location consisting of 660 FNL and 2256 FWL Section 7, T-25-S, R-37-E and for administrative approval to simultaneously dedicate it to an 80-acre non-standard Jalmat (Yates) proration unit comprised of the E/2 NW/4 of Section 7, T-25-S, R-37-E, Lea County, New Mexico.

After the Munn-Harrison "B" No. 1 is successfully completed and put on production, the Judy No. 2, which is presently a non-commercial Jalmat well, will be plugged and abandoned.

Furthermore, if the proposed well is completed as a commercial producer, in compliance with the Natural Gas Policy Act of 1978, an application will be submitted to the New Mexico Oil Conservation Division to obtain administrative approval for the well as a Section 103 infill well located on a previously existing proration unit.

Copies of this plat and application have also been sent to all offsetting parties owning shallow Jalmat dry gas rights. The following is a list of
