Eumont Yates 7-Rivers Queen,
Lea County, New Mexico.

N12 SE14 and SE14 SE14

Gentlemen:

On behalf of Warrior, Inc., the undersigned requests approval for dedication of a 120 acre non-standard gas proration unit at the captioned well. The acreage dedicated as well as the offset operators are shown on the attached map.

Field rules designate 640 acres as a standard gas proration unit, however development of the pool has generally been on proration units of less than 640 acres.

In July, 1981, through Administrative Order NSP 1256, the Division had approved a 160 acre non-standard proration unit for the captioned well. It is requested the 160 acre NSPU be cancelled, and a 120 acre NSPU be approved.

A copy of this application is being sent to all offset operators by certified mail.

Very truly yours,

Mohammed Yamin Merchant
