Attention: Mr. Joe D. Ramey

Gentlemen:

Amoco Production Company requests administrative approval of a 120 acre non-standard proration unit for our State "C" Tract 12 No. 4. The well is located 1980' FNL x 3300' FEL, Section 16, T-21-S, R-37-E, Lea County, New Mexico.

Our plans are to recomplete the subject well to the Tubb Oil and Gas Pool and dually complete with the existing Drinkard Pool completion. Amoco owns 100% interest in the NW/4 of Section 16. The non-standard proration unit is necessary because the NE/4 NW/4 of Section 16 has been dedicated to a Tubb-Oil completion in our State "C" Tract 12 No. 6Y.

Attached are copies of the C-102 showing the well location and acreage dedication of the State "C" Tract 12 No. 4. Also included is a map showing the offset operators and a list of offset operators. All offset operators have been notified by mail; certified mail receipts are attached.
