Dear Mr. Ramey:

Enclosed is a request for a reoriented spacing unit. We hope to handle this request through the administrative process; offset operators have agreed to review our request.

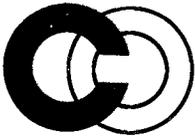

In the unlikely event that offset owners disagree with our request, the matter will of course have to come to hearing. Could you reserve a place on your hearing docket of April 25, 1984 for our cause? I will stay in close contact with the person in your office who monitors the docket so that the place would not be unnecessarily reserved.

Yours very truly,
