Rule 3 of ORDER NO. R-1670
Sept. 21, 1984

ATTENTION: MR. JOE RAMEY

Gentlemen:

It is requested that a 160 acre non-standard gas proration unit and a prorated gas allowable be granted and assigned to our L. Van Etten Well No. 1, situated in the Eumont Gas Pool.

660' FWL & 1980 FSL OF Sec. 9

The subject well is located in Unit L of Section 9, T-20S, R-37E, Lea County, New Mexico. It will drain the 160 acre proration unit that was previously assigned to L. Van Etten Well No. 9. This latter well was recently plugged and abandoned due to bad casing. The acreage requested is the SW/4 of Section 9.

The proposed unit will not conform to the regulatory requirement of 640 dedicated acres in the Eumont Gas Pool. The entire proposed area is considered to be only gas productive. Copies of this application have been furnished by Certified Mail to all Offset Operators.

Respectfully yours,

Dale R. Crockett
Hobbs Area Superintendent
