Application

FEE LEASE

Gentlemen:

We have filed a C-101 and C-102 with the New Mexico Oil Conservation Division District Office in Hobbs for permission to drill a new Jalmat gas well as a Section 103 well at an orthodox Jalmat (Gas) location consisting of 1980' FNL and 1650' FEL (G) Section 24, T-23-S, R-36-E. The subject well will be drilled on a presently non-producing 160-acre non-standard proration unit comprised of the NE/4 of Section 24, T-23-S, R-36-E, Lea County, New Mexico. The acreage to be dedicated to the proposed J. F. Janda NCT-G No. 2 was previously dedicated to Gulf's J. F. Janda NCT-G No. 1 Jalmat gas well located 990' FNL and 990' FEL (A) of Section 24. The Gulf-J. F. Janda NCT-G No. 1 last produced in October, 1979 and was reported temporarily abandoned on January 14, 1980.

Therefore, we hereby file for administrative approval to drill the newly proposed J. F. Janda NCT-G No. 2 at the orthodox Jalmat location of 1980' FNL and 1650' FEL of Section 24 and also for administrative approval to dedicate the well to a new 160-acre non-standard Jalmat proration unit comprised of the NE/4 of Section 24, T-23-S, R-36-E.

JALMAT GAS POOL

Furthermore, if the proposed well is completed as a commercial producer, and in compliance with the Natural Gas Policy of 1978, an application will also be submitted to the New Mexico Oil Conservation Division to obtain administrative approval for the well as a Section 103 well.

Three copies of a plat showing the location of the original well on the proposed 160-acre proration unit plus the location of the proposed new well are also enclosed.
