RE: **MWJ-Baum 17 "B" State #1 & #2**
Lea County, New Mexico

Gentlemen:

MWJ Producing Company recently completed the drilling and placed on production the Baum 17 "B" State #2 well. The well is located 1980' from the south line and 660' from the east line (unit letter I) of Section 17, Township 14 South and Range 33 East, Lea County, New Mexico. The Baum 17 "B" State #1 is in the same quarter section of section 17. Both wells are completed in the Bough "C" formation and the field rules applicable are those for the Baum (Upper Penn). These special field rules allow for 160 acre units. MWJ hereby requests approval of two non-standard units of 80 acres for these two wells as shown by the attached plat. This approval is necessary for the consideration of the Natural Gas Policy Act application under category 103 for the Baum 17 "B" State #2 well.

Enclosed please find the information as required by rule 104 of the Oil Conservation Division for consideration of our request.

Very truly yours,
