Acreage 240 Acres

N/2 of SW/4

Wildcat Atoka

Gentlemen:

Please be advised that this letter will serve as TXO Production Corp.'s application for permission to produce the Federal "E" #1 on substandard acreage.

As summarized on the attached memo, the Federal "E" #1 was completed as an Atoka gas well on January 9, 1985. Due to gas contract problems, the well was never tested in this zone. A contract has since been negotiated and is currently being circulated to our partners in this well for approval.

TXO Production Corp. has nominated the acreage in the SW/4 SW/4 and SE/4 SW/4 of Section 4, T-22-S, R-26-E, and we are interested in testing the well as soon as all gas contract obligations have been satisfied. Please find enclosed copies of the recompletion papers and sundry notice filed on this well. If there are any questions regarding this application, please do not hesitate to contact me at (915) 682-7992.

Sincerely,

FEDERAL "E" #1 WELL
W/2 Section 4
T-22-S, R-26-E
Eddy County, New Mexico

The following is a chronological sequence of events regarding the leasehold title for the Federal "E" #1 well:

1. TXO Production Corp., formerly Texas Oil and Gas Corp., acquires a 50% working interest from Nielson Enterprises in Federal Lease No. NM24945 covering the NW/4 and N/2 SW/4 Section 4, T-22-S, R-26-E, Eddy County, New Mexico.
2. TXO acquires a farmout from Superior Oil Company covering State of New Mexico Lease No. LG1293 which covers the SW/4 SW/4 Section 4, T-22-S, R-26-E, Eddy County, New Mexico.
3. TXO acquires a farmout from Allied Chemical Corporation for State Lease No. L2352, covering the SE/4 SW/4 of Section 4, T-22-S, R-26-E, Eddy County, New Mexico.
4. TXO executes an exploration agreement dated June 1, 1976 with Columbia Gas Development Corporation, wherein Columbia will acquire 1/2 of TXO's interest in the Federal "E" #1 well.
5. Nielson Enterprises declines to take any of the working interest from the farmout agreements from Superior or Allied.
6. TXO drills and completes the Federal "E" #1 well as a Morrow producer and communitizes the W/2 of Section 4, T-22-S, R-26-E, as the proration unit for the Federal "E" #1 well.
7. TXO earns an assignment from Superior and Allied under the terms of the farmout agreements referenced earlier.
8. TXO recompletes the Federal "E" #1 well as an Atoka well and the communitization agreement covering the W/2 of Section 4 expires. As a result, the State of New Mexico leases in the SW/4 SW/4 of Section 4 and the SE/4 SW/4 of Section 4 expire as the communitization agreement only covered the Morrow formation.

I hope this brief summary will give you all the information you need. Should you have any other questions, please do not hesitate to give me a call.

Federal "E" #1

Mr. Stogner:

On July 5, 1985 notification was sent to all offset operators on the Federal "E" #1. The notification mistakenly described a non-standard proration unit of 560 acres.

A revised notification was sent out via certified mail describing a proration unit of 240 acres. Please find enclosed copies of the certified mail receipts.

If there are any questions concerning this revision, please contact me at (915) 682-7992.

Sincerely,
