Re: Pierce Federal #1
SE/4, Sec. 4, T6S, R22E
Chaves County, N.M.

Gentlemen:

McKay Oil Corporation desires to drill a Federal location in the SE/4, Section 4, Township 6 South, Range 22 East, NMPM. (See Attachment 'A') Due to the topography and geological problems, McKay Oil is requesting an unorthodox status.

The well was originally staked at 660' feet from the South line and 660' feet from the East line. Due to the terrain, the BLM would not approve this location or any other location within this particular drilling spacing unit. (See Attachment 'B')

The SE/4 of this quarter section was chosen because of geological data on wells to the South. Not much is known about the area to the North. Further, any location in this quarter section that would be feasible to drill would have to be a non-standard location. Therefore, it is our opinion that this location would be the best economical and productive location to drill. (See Attachment 'C')

All minerals surrounding this proration unit are leased to McKay Oil Corporation.

Therefore, McKay Oil requests that the O.C.D. approve the unorthodox location at 460' feet from the South line and 460' feet from the East line, Section 4, Township 6 South, Range 22 East, NMPM, which has been approved by the BLM and E.N.M. Archaeological Service.
