RE: Springs AEU Federal Com #1  
1882' FNL and 1650' FEL of  
Section 3-T21S-R25E  
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation requests administrative approval for the non-standard location as provided for under NMOCD Rule 104F.

The reason for requesting this non-standard location is topographic. Our preferred location was 2100' FNL and 1400' FEL of Section 3-T21S-R25E, but due to the proximity of the Brantley Dam Project on our lease, we chose the non-standard location of 1882' FNL and 1650' FEL as this was the best location to drill the captioned well as it is flat in this area.

Enclosed please find a copy of the lease map showing the offsetting lease operators, a topographic map of the area and a survey plat. Offsetting lease operators have been notified of our intentions by certified mail, via a xerox copy of this letter.

Formations that we expect to drill through are: Delaware Sandstone, Bone Springs Limestone, 3rd Bone Springs Sandstone, Wolfcamp. Canyon Dolomite, Strawn, Atoka, Morrow and Chester Shale. Our expected total depth is 10500'.

If you have any questions concering this matter, please do not hesitate to call me at 505-748-1471.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

Rusty Jernigan  
Regulatory Secretary

RE: Non-standard proration unit  
Springs AEU Federal Com #1  
Section 3-T21S-R22E  
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation respectfully requests approval for a non-standard proration unit for the captioned Morrow gas well. Due to the irregular size of the lots in this township, this well has 276.21 acres dedicated to it. A copy of the surveyors plat is attached.

I am notifying the off-set operators of this via a xerox copy of this letter by certified mail.

If you should have any questions, please do not hesitate to call me.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

ATTENTION: Mr. William LeMay

RE: Non-standard proration unit  
Springs AEU Federal Com #1  
Section 3-T21S-R22E  
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation respectfully requests approval for a non-standard proration unit for the captioned Morrow gas well. Due to the irregular size of the lots in this township, this well has 276.21 acres dedicated to it. A copy of the surveyors plat is attached.

I am notifying the off-set operators of this via a xerox copy of this letter by certified mail.

If you should have any questions, please do not hesitate to call me.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

RE: Non-standard proration unit  
Springs AEU Federal Com #1  
Section 3-T21S-R22E  
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation respectfully requests approval for a non-standard proration unit for the captioned Morrow gas well. Due to the irregular size of the lots in this township, this well has 276.21 acres dedicated to it. A copy of the surveyors plat is attached.

I am notifying the off-set operators of this via a xerox copy of this letter by certified mail.

If you should have any questions, please do not hesitate to call me.

Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION
