RE: Fruitland Coal Well  
NEBU No. 212  
Section 1, T31N, R7W  
San Juan County, New Mexico

Dear Mr. Clark:

Enclosed please find a copy of the original waiver dated December 21, 1988 waiving any objections Quinoco Petroleum, Inc. may have to the Blackwood & Nichols' Northeast Blanco Unit No. 212 well which is of a non-standard size and non-standard quarter section location.

The original copy of the waiver will be sent to the New Mexico Oil Conservation Division along with a copy of this letter.

Sincerely,

QUINOCO PETROLEUM, INC.

Gentlemen:

In accordance with Order No. R-8768, "Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool", the last section, Blackwood & Nichols Co., Ltd. is filing amended Forms C-102 and C-104 for the Northeast Blanco Unit No. 212 well which was drilled in 1985.

Administrative approval is requested for a non-standard unit size of 181.4 acres and for a non-standard pattern (SE) within the section. Notices to offset operators, Northwest Pipeline and Quinoco (Denver) have been sent.

Your cooperation in this matter is appreciated.

Sincerely,

BLACKWOOD & NICHOLS CO., LTD.

Form C-102  
Revised 10-1-78

All distances must be from the outer boundaries of the Section.

Operator BLACKWOOD & NICHOLS CO., LTD.		Lease NORTHEAST BLANCO UNIT		Well No. 212
Unit Letter 0	Section 01	Township 31N	Range 7W, NMPM	County San Juan
Actual Footage Location of Well:				
1030	feet from the	South	line and	1650
				feet from the East line
Ground Level Elev. 6518' UG	Producing Formation Fruitland Coal	Pool Basin Fruitland Coal Gas	Dedicated Acreage 181.4 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes  No If answer is "yes," type of consolidation Unitization

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.

NOTE: The footage from the South line had to be revised to avoid an archaeological site.

Administrative Order NSP-1591

Dear Mr. Clark:

Reference is made to your application of December 11, 1989 for a 367.13-acre non-standard gas proration unit comprising all of Irregular Section 1, Township 31 North, Range 7 West, NMPM, Basin-Fruitland Coal Gas Pool, San Juan County, New Mexico.

It is my understanding that this unit is to be dedicated to your Northeast Blanco Unit Well No. 462 to be drilled at a standard coal gas well location 805 feet from the South line and 1370 feet from the West line (Unit N) of said Section 1.

There is currently a 181.40 acre non-standard gas proration unit for the Basin-Fruitland Coal (Gas) Pool comprising Lots 5 and 6 and the SE/4 of said Section 1 which is dedicated to the applicant's Northeast Blanco Unit Well No. 212 located 1030 feet from the South line and 1650 feet from the East line (Unit O) of said Section 1. Said non-standard unit and unorthodox well locations were authorized by Division Administrative Order NSP-1564(L).

It is my understanding that the No. 212 well will be converted to a pressure observation well.

By authority granted me under the provisions of Rule 6 of the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool, as promulgated by Division Order No. R-8768, the above non-standard gas proration unit is hereby approved. Also, Division Administrative Order NSP-1564(L) will be placed in abeyance until further notice and the Northeast Blanco Unit Well No. 212 will cease production and will be converted to a pressure observation well.

Sincerely,

William J. LeMay
