OIL CONSERVATION DIV. SANTA FE

Attention: Mr. Michael Stogner

Subject: Application for Nonstandard Proration Unit

Basin Fruitland Pool

Da On Pah No. 1 Sec. 35, T27N, R12W

San Juan County, New Mexico

Dear Mr. Stogner:

By this letter Merrion Oil & Gas Corporation requests administrative approval for a Nonstandard Proration Unit for the Da On Pah No. 1 well in accordance with the provisions of Order No. R-8768, Section No. 5.

The Da On Pah was a productive well prior to the existence of the Basin Fruitland pool which was established by Order R-8768 on November 1, 1988. This well is drilled on an Indian Allotted Lease, No. NOO-C-7472, consisting of 160 acres and described as the NE/4 of Section 35, T27N, R12W, San Juan County, New Mexico. The offset acreage to the South is also an Indian Allotted Lease, No. NOO-C-7471, consisting of 160 acres of differing ownership and upon which Fruitland Coal seam production exists from the Pete No. 1R well. Consequently, we have two leases with different ownership. The Pete No. 1R is a much poorer producer than the subject well. Therefore we do not believe it is feasible to communitize the E/2 of Section 35 inasmuch as such an arrangement would be inequitable to the Royalty owners of the lease with the better well.

Merrion has notified, by certified mail, the offsetting operators or lessees of this application and has requested written waivers to be submitted.

Enclosed for your review and approval are a lease map of the affected area along with a C-102 acreage dedication plat for the subject well.

N.M. Oil Conservation Dept. April 17, 1989

Page 2

If you require further information or wish to discuss this application, please give me a call.

Yours truly,

Steven S. Dunn

Operations Manager
