Attention: Peggy Bradfield

Amended Administrative Order NSP-1576(L)

Dear Ms. Bradfield:

Reference is made to your applications dated July 31 and September 12, 1990 to amend the unorthodox location of your proposed Rosa Unit Well No. 238 (which was the subject of division Administrative Order NSP-1576(L), dated July 18, 1989) from the previously approved location 2270 feet from the South line and 1840 feet from the East line (Unit J) of Section 3, Township 31 North, Range 6 West, NMPM, Basin-Fruitland Coal Gas Pool, Rio Arriba County, New Mexico, to a new location being 2045 feet from the South line and 1960 feet from the East line (Unit J) of said Section 3.

It is our understanding that the proposed amendment is sought because of a survey error made by Northwest Pipeline Corporation, furthermore, such error was discovered because Meridian Oil, Inc., who assumed operatorship of the subject wellsite and the Rosa Unit on October 20, 1990, elected to verify the previously approved staked location as reported in Northwest Pipeline's original APD. The location of the stake was not moved, only the footages describing the staked location have been corrected.

The applicant in this matter, Meridian Oil, Inc. has made a proper filing to amend the subject location pursuant to Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768. The subject application is hereby approved and said Order NSP-1576(L) is hereby amended to reflect the well location for the Rosa Unit No. 238 as 2045 feet from the South line and 1960 feet from the East line (Unit J) of said Section 3.

All other provisions of original Order NSP-1576(L) shall remain in full force and effect until further notice.

Sincerely,

William J. LeMay  
Director
