Application for Non-Standard Proration Unit
and Unorthodox Location
Rosa Unit Well No. 119 - S/2 Section 18-T31N-R5W
Basin Dakota Pool
Rio Arriba County, New Mexico

Amoco Production Company hereby requests administrative approval for a non-standard proration unit consisting of the S/2 Section 18-T31N-R5W and an unorthodox location for the Rosa Unit Well No. 119 for the Basin Dakota Pool. The non-standard proration unit is required due to the irregular sections resulting from U. S. Public Land Surveys along the western boundary of this township. The Rosa Unit Well No. 119 will be drilled at a location 985 feet FSL and 1055 feet FWL of Section 18-T31N-R5W, Rio Arriba County, New Mexico. This location requires an exception due to the reduced SW/4 in this irregular section.

A copy of this application will be submitted to the offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office. Attached is a plat showing the proposed well location and configuration of Section 18, along with an ownership plat.

Sincerely,

J. W. Hawkins
