Attention: John Alexander, Operations Manager

Administrative Order NSP-1678

Dear Mr. Alexander:

Reference is made to your application dated August 11, 1993 for a 198.62-acre non-standard gas spacing and proration unit consisting of the following acreage in the Basin Fruitland Coal Gas Pool:

RIO ARRIBA COUNTY, NEW MEXICO
TOWNSHIP 28 NORTH, RANGE 3 WEST, NMPM
Section 7: Lots 1 and 2 and the NE/4

It is my understanding that this unit is to be dedicated to your existing Jer Well No. 2 which was drilled in 1978 and completed in the Choza Mesa Pictured Cliffs Pool at a standard gas well location 1850 feet from the North line and 1700 feet from the East line (Unit G) of Section 7.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, as amended, is standard.

By the authority granted me under the provisions of Rule 6 of said Division Order No. R-8768, as amended, the above-described non-standard gas spacing and proration unit is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".

William J. LeMay
