Re: Unorthodox Location & Reduced Proration Unit Size Petition
Federal 17-A #2
Bluitt San Andres Associated Gas Field
Roosevelt County, New Mexico

Dear Mr. Stogner:

Union Oil of California has previously requested an unorthodox location and reduced proration unit size of 160 acres. Your letter dated April 25, 1994 brought to our attention Division Order No. R-5353, as amended, which prohibits the simultaneous dedication of any acreage to an oil well and a gas well in this associated field. We are now required to reapply for unorthodox location and reduced proration unit size of 80 acres.

We notified the offset operators listed on the attached page of our intentions on May 2, 1994 but failed to send you any information requesting your approval of our petition. Union Oil of California at this time request you grant our petition for an unorthodox location exception and reduced proration unit size of 80 acres in the Bluitt San Andres Associated Field for the Union Oil of California, Federal 17-A #2 located 660' FSL & 810' FEL, Sec 17, T-8-S, R-38-E, Roosevelt County, New Mexico. We have received one signed waiver from McDonnold Operating (see attached).

We have successfully recompleted the above mentioned well in the Bluitt San Andres Field. This well now requires reclassification from oil to gas wells in the Bluitt San Andres Associated Field. The spacing and acreage requirements for the Bluitt San Andres Associated Field are different for those required for the oil field. To comply with the requirements of the gas field we are required to file for an unorthodox location exception and reduced proration unit size of 80 acres for the above mentioned well.

You prompt consideration of this matter will be greatly appreciated. If you have any questions, please feel free to call me at (915) 685-6856.

Very truly yours,

Clayton O. Carson
Senior Development Geologist
