**RE: Application for 320-acre Non-Standard Proration Unit
for Eumont Gas Production from E/2 Sec. 14, T-20S, R-36E
To be dedicated to the Two Proposed Drilling Wells, the
Sanderson A Nos. 19 & 20 located at 990' FNL & 660' FEL
and 1830' FSL & 810' FEL Respectively, Lea County, New Mexico**

Dear Mr. LeMay:

As shown by EXHIBIT A, a current 160-acre non-standard proration unit for Eumont gas production was established by order NSP 1264 for the NE/4 of section 14. Since there are no longer any active Eumont gas wells dedicated to this NSPU, Conoco requests that this order be set aside so that a new NSPU may be formed for two proposed drilling wells, the Sanderson A Nos. 19 and 20.

Conoco requests that an administrative order be issued to establish a new 320-acre NSPU consisting of the E/2 section 14 as shown in EXHIBIT B and that both of the proposed Sanderson A Nos. 19 and 20 wells be dedicated to it. These new wells will be drilled at standard locations for a 320-acre NSPU.

All offset operators to this proposed NSPU, as shown on EXHIBITS A and B, have been notified by certified mail of the filing of this application. Copies of these mail receipts are also attached as EXHIBIT C.

If there are any further questions concerning this application, please contact me at (915) 686-6548. Thank you.

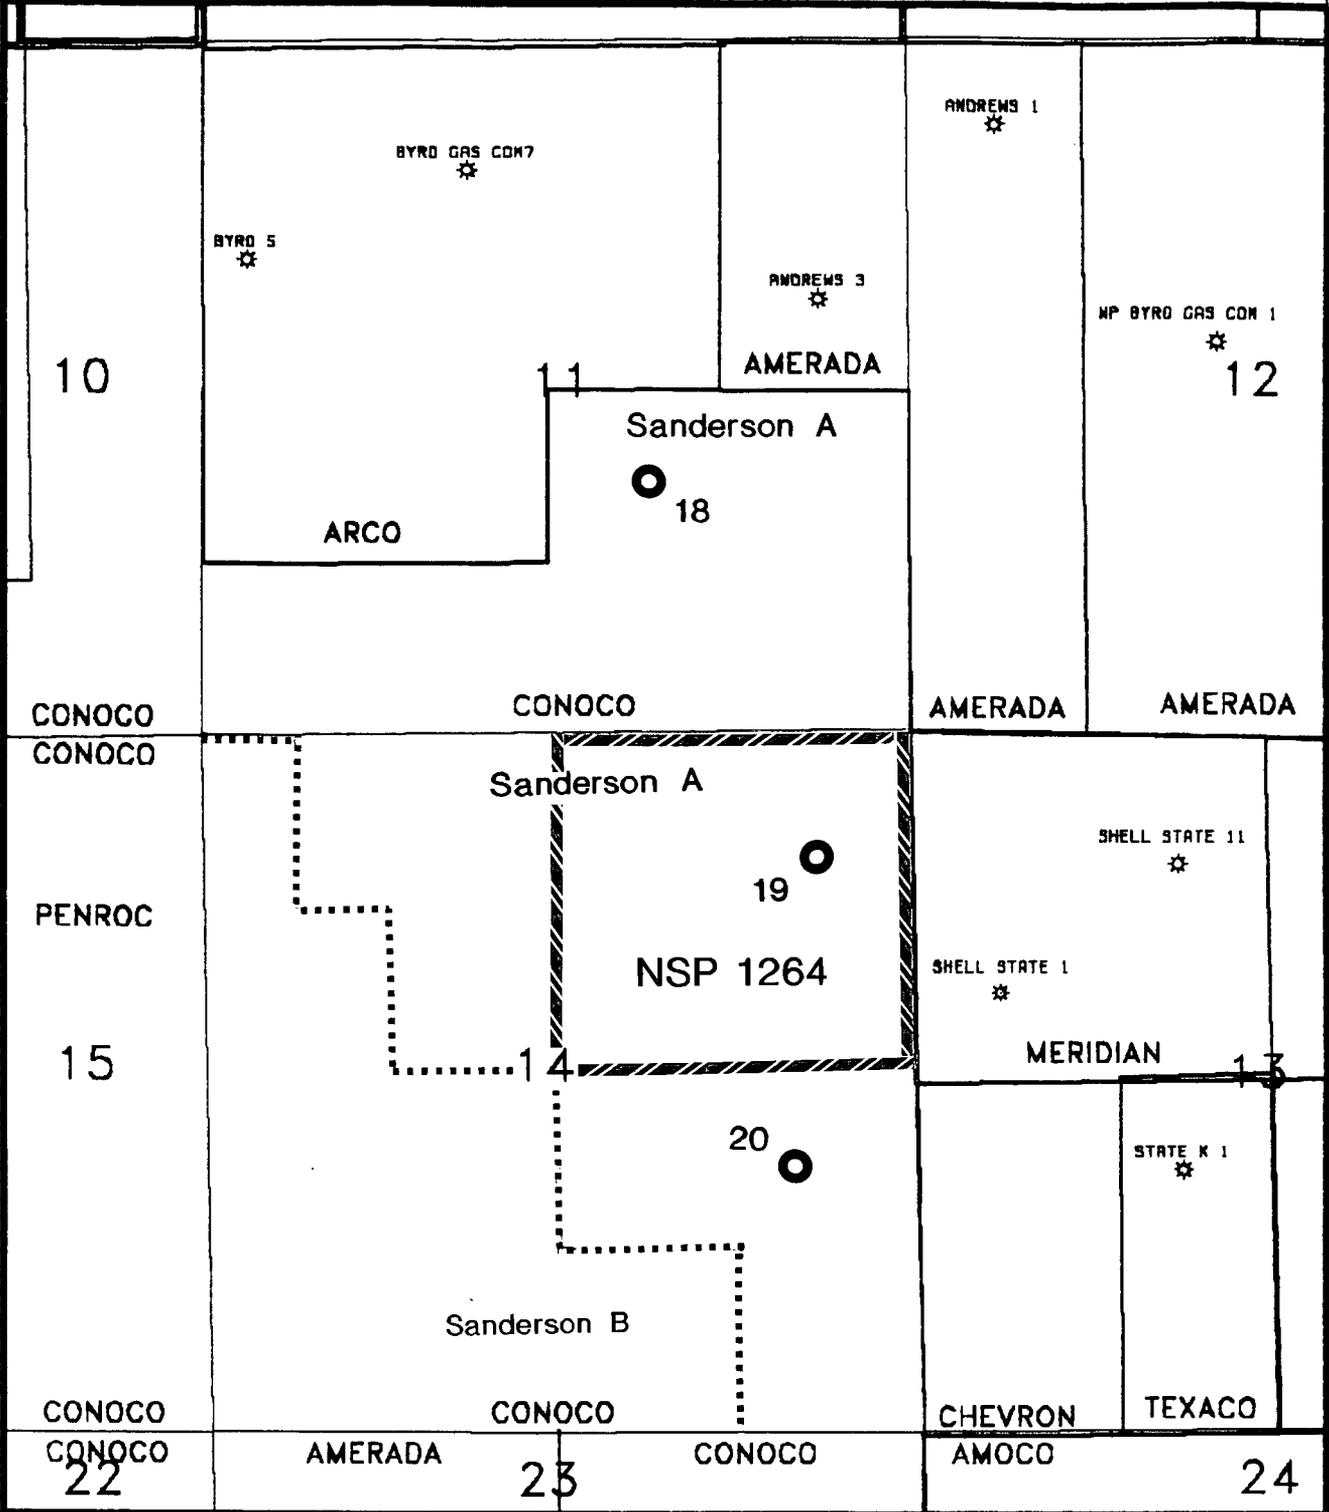

Very truly yours,

Jerry w. Hoover
Sr. Conservation Coordinator
