**RE: APPLICATION FOR NON-STANDARD GAS PRORATION UNITS
BLANCO MESAVERDE
ROSA UNIT # 13 MESAVERDE FORMATION
N/2 SECTION 31, T31N, R5W; 232.89 ACRES
ROSA UNIT #137 MESAVERDE FORMATION
S/2 SECTION 31, T31N R5W; 232.99 ACRES
RIO ARriba COUNTY, NEW MEXICO**

Gentlemen:

Northwest Pipeline Corporation, as Rosa Unit Operator, is requesting permission to produce the above captioned wells as Non-Standard Proration Gas Units. The unorthodox size of these units is necessitated by a variation in the legal subdivision of the U.S. Public Land Survey. The offset operator has been notified of our intentions and their waiver to any objections is attached.

The proration unit for the Rosa Unit #13 Mesaverde formation well was originally submitted as the E/2 of Section 31 when it was drilled in 1956. Northwest Pipeline Corporation believes that in order to fully develop Section 31 the appropriate proration unit for the Rosa Unit #13 should be changed to the N/2 of Section 31, T31N, R5W, and by this application requests approval of this change.

Sincerely,

Mark McCallister, Senior Engineer
