Dear Ms. Wolfe and Mr. Melton:

Reference is made to Westbrook Oil Corporation's ("Westbrook") application dated February 16, 1995 and the application dated February 23, 1995 from Joe Melton Drilling Co., Inc. ("Joe Melton"), to divide the existing 160-acre non-standard gas spacing and proration unit ("GPU") in the Jalmat Gas Pool comprising the NE/4 of Section 9, Township 25 South, Range 37 East, N.M.P.M., Lea County, New Mexico, into a 40-acre and a 120-acre gas spacing and proration unit.

Said 160-acre GPU was authorized by Division Order R-6032, dated June 26, 1979, and was dedicated to the Prichard "A" Well No. 1 (API No. 30-025-11511) located at a standard gas well location 1980 feet from the North and East lines (Unit G) of said Section 9.

It is our understanding at this time that:

- (1) the acreage dedication for said Prichard "A" Well No. 1 will be changed to a non-standard 40-acre unit comprising the SW/4 NE/4 of said Section 9; and,

RE: Jalmat Gas Pool Production:
NE/4 of Section 9, Township 25 South, Range 37 East, NMPM
Lea County, New Mexico

Dear Mr. Melton:

Reference is made to Westbrook Oil Corporation's ("Westbrook") application dated February 16, 1995 requesting the 40-acre tract (acreage factor of 0.25) comprising the SW/4 NE/4 (Unit G) of said Section 9, in which their Prichard "A" Well No. 1 (API No. 30-025-11511), located 1980 feet from the North and East lines, is located, be severed from the existing 160-acre non-standard Jalmat gas spacing and proration unit comprising the NE/4 of said Section 9, approved by Division Order No. R-6032 (see copy attached).

This would result in the Joe Melton Drilling Co., Inc. Prichard "B" Well No. 1, located in Unit "B", dedicated to the remaining 120 acres comprising the N/2 NE/4 and SE/4 NE/4 (acreage factor of 0.75).

To date I have not received a corresponding application for the creation of the 120-acre non-standard Jalmat gas spacing and proration unit for the Prichard "B" Well No. 1 from Joe Melton Drilling Co., Inc.

If an application has not been filed by the time the Westbrook application has been reviewed and released by the Division the Prichard "B" Well No. 1 will be subject to shut-in until a non-standard gas spacing and proration unit has been approved by the Division for the subject 120 acres.

It is to your advantage to file such an application pursuant to the "Special Rules and Regulations for the Jalmat Gas Pool", as promulgated by Division Order No. R-8170, as amended, as soon as possible in order to avoid interruptions to gas sales from this well.

Should you have any questions concerning this matter, please contact me in Santa Fe at (505) 827-8185.

Sincerely,
