Dear Mr. Armstrong:

We have determined that under existing conditions the Poker Lake Unit No. 303H well is **not** capable of producing unitized substances from the Brushy Canyon Formation of the Delaware Mountain Group in unit paying quantities. The well was completed in the Brushy Creek Formation on May 5, 2012. Since the well was determined to be a nonpaying unit well, a drilling and spacing unit must be established for the well so that a communitization agreement can be approved by the Carlsbad Field Office.

If you have any questions, please call the undersigned at (307) 261-7685.

Sincerely,

/s/ J. David Chase
