Re: Westland Development Well
No. 1 P-1-10N-1E
Bernallilo County, NM

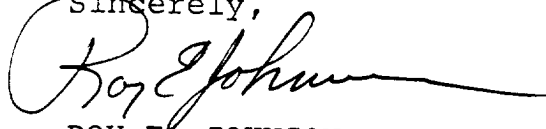

Dear Ms. Hansen:

I am writing you this letter as a follow-up to our telephone conversations and my letter to you dated October 22, 1984 (copy enclosed). This office has of yet to receive the necessary Form C-103's and C-105 on the above-referenced wells. Through numerous telephone conversations with a representative of Westland Development it is their desire not to convert this well to a water well. Therefore, this office will require a 10 sack cement plug be set at the surface with a 4 foot dryhole marker as required by our rules and regulations. Restoration of this location shall proceed as soon as possible and this office shall be notified upon completion.

Should the required forms and notification of when site reclamation will begin not be received within 15 days, this matter will be turned over to our legal department for appropriate action.

Should you have any questions pertaining to this, please
contact me at this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Roy E. Johnson", with a long horizontal flourish extending to the right.

ROY E. JOHNSON
Senior Petroleum Geologist

REJ/dp

Encs.
