17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1105.

This well was spud on June 18, 1987. The well was drilled to 500' with water base mud and 495' of 6-5/8" casing was set in the 8-1/2" hole with 50 sacks (59 cu.ft.) class "B" neat cement. We then drilled a 6-1/4" hole to T.D. at 650' with air on June 21st, 1987. No significant oil or gas shows were found. Since the well was within 25' of the TransOcean Turner No. 1 and the section was identical, no additional logs were run. In accordance with verbal instructions, we now intend to plug and abandon the hole with cement plugs from 650' to 250' and a surface plug from 50' to surface.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
