Gottlieb No. 1, NE/4
NE/4 Section 21,
Township 10 North,
Range 9 West,
Valencia County, New Mexico

Dear Mr. Gottlieb:

On February 27, 1957 you wrote to Mr. O. A. Larrazolo indicating that you were completely satisfied with the plugging of the subject well. However, your last sentence indicated that you believed the derrick was to be removed and that then you would be totally satisfied. An inspection of this site June 20, 1958 revealed that the derrick has not yet been removed.

Mr. Larrazolo and Mr. Cornell have been requesting for some time that their plugging bond be released. We may cancel this bond only after the well has been properly plugged and the site cleared or a written release from responsibility is received from the land owner.

If the present condition of the well site is completely satisfactory to you will you please write to the Commission so stating in order that we may cancel the plugging bond on this well and complete our files.

Very truly yours,

R. L. Stamets
