Dear Mr. Larrazolo:

This is to verify that the Gottlieb No. 1 Well located on my ranch, near Grants, has been properly plugged and that the pits have been covered and that everything is in tip-top shape and to my satisfaction.

The derrick is the only thing remaining at the site of the well. I understand that it will be soon removed and in any case it is not in the way.

Very truly yours,

Sidney S. Gottlieb
