☐ Beginning Drilling Operations ☐ Remedial Work
☒ Plugging ☐ Other _____

Detailed account of work done, nature and quantity of materials used and results obtained.

We put in a plug at the bottom of 200 feet of surface casing then mixed and poured in 50 sacks of common cement which in turn filled the hole. The plug was set upon the mud that was in the bottom of the hole. We put a cap on top extending 4 feet above the surface, 4 inches in diameter, as we located no gas or oil structures, we are leaving section open for rancher to make into a water well.
