RE: Mackie No. 1 Well  
Section 18, Township 25 North  
Range 20 East  
HMB No. 1 Well  
Section 36, Township 25 North,  
Range 19 East  
Colfax County, New Mexico

Dear Sir:

Reference is made to your letter of March 5, 1957, wherein you state that both of the above wells encountered water but did not penetrate any oil bearing formation.

We are assuming that you have completed drilling operations on both wells and desire now to plug them or transfer them to the landowner for his use as water-wells.

Either of these courses should be satisfactory provided the various requirements of the Commission are met. First of all, we will need Form C-103 filed for each well, indicating date of spudding and setting of any casing that may have been run. We will also need Form C-102, Notice of Intention to Plug or Notice of Intention to Convert to Water Well, as the case may be, accompanied by Form C-105, Well Record, for each well. Copies of any electrical and/or radio activity logs run on the wells must also be submitted.

Los Angeles 48, California

In order to transfer a well to the landowner for his use as a water-well, it is necessary that both the operator and the landowner execute our Affidavit of Responsibility, Conversion to Water-Well. We are enclosing several copies of this form for your use if that is the course you wish to follow.

Very truly yours,

DANIEL S. NUTTER  
Petroleum Engineer
