Mr. Carl Ulvog
Oil Conservation Commission
Box 2088
Santa Fe, New Mexico

Dear Sir:

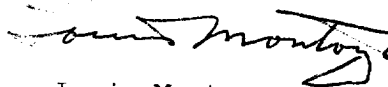

My wife informed me that you had been at my home recently regarding an oil exploration hole drilled on the property of Fernandez-Montoya, Inc., and which hole was, under the terms of the lease, capped and turned over to Fernandez-Montoya for probable later conversion into a water well.

Although I seem to recall receiving another instrument from the driller that contained in the heading the word "deed", I cannot now locate such instrument. I am, however, sending you a zerox copy of the Affidavit of Responsibility which the driller presumably filed with your commission.

If there is further ;information that you need, please feel free to contact me at 505-483-2322.

About two months ago, someone contacted me by phone claiming to be making a Federal survey of some sort in which he needed ~~1~~ to take the bottom temperature of deep wells in this area. I gave him permission to uncap and take the temperature of this well as well as another deep well we have some two miles south.

Yours truly,

Louis Montoya
