Letter to Environmental Improvement Division
July 6, 1983

It has come to our attention in the past that most of these "anonymous" complaints are merely complaining about drilling activity rather than potential pollution hazards. ChalFont Oil & Gas Company has drilled this well in a professional manner and in accordance with the O.C.D. Rules and Regulations and in my opinion this location does not pose a water, hazardous waste, or solid waste pollution problem.

Sincerely,

ROY E. JOHNSON
Petroleum Geologist

REJ/fd
