Don Riley
P. O. 1975
Odessa, Texas 79760

Dear Mr. Riley:

Your Wickett Well No. 1 in Guadalupe County was abandoned in September 1978. You were advised of overdue reports concerning this operation on January 15, 1979, and again on February 28, 1979. In response thereto, we received a Form C-103 on March 16th, last, stating that the well had been plugged (copy attached) but was otherwise incomplete. Inspections since that time showed the pits were not filled, the location was not cleared or levelled, and there was no marker. (See Rule 202 of the Regulations.)

Because of the great length of time which has elapsed since this well was abandoned, it is imperative that you take steps to complete this operation. Kindly advise your plans for doing so prior to June 7th, next.

Yours truly,

CARL ULVOG
Supervisor, District IV
